

WOULD YOU LIKE TO KNOW MORE?

HOW MUCH DO YOU CHARGE?

We base our charges on what we collect, not what we bill.

Many billing services charge a flat per fee claim. Billing services that work on a flat, per claim rate are not motivated to continue working to get denied, or problem claims paid. We work aggressively on each claim to get you the most money possible per claim. Our rates are as follows:

- *\$250 set up fee*
- *Any fees associated with the clearing house you choose to use (office alley, Gateway EDI, etc.) are contracted directly by you*
- *7% of the claims we collect, a minimum of \$250 per month.*

HOW DOES IT WORK?

- *We use your software to bill insurance via a remote desktop and/or VPN service.*
- *We process all Explanation of Benefits via secure file transfer.*
- *We work with the gateway system you currently utilize to process explanation of benefits. If you are not currently using a gateway, we can set that up for you, as most payers now require electronic processing capability.*
- *Once we finalize your billing and posting for the month, we produce an itemized statement produced directly from your software*

DO YOU PROVIDE TRAINING AND DEVELOPMENT?

- *Yes. We specialize in Chirotouch training support. Additionally, we can provide migration support from paper-based systems to more robust EDI systems. Training and Development support is available in person or on-line. Our fees for Training and Development are \$40 per hour.*
