**Activity of Daily Living Scale from the MDS**

The Activity of Daily Living Scale is obtained by summing the residents self performance ratings on MDS for the following 7 functional activities:

- Bed mobility
- Dressing
- Toileting
- Transfer
- Eating
- Grooming
- Locomotion

**ADLS per MDS (more TLA’s)**

In the MDS, functional ability is rated on a 5 point scale for each activity.

- 0 = independent
- 1 = supervision
- 2 = limited assistance
- 3 = extensive assistance
- 4 = total dependence

A total score of 28 represents complete functional dependence.
