July 10, 2017

Nominations for the 2017 Board of Directors *and* the Dariush Arasteh Memorial Member of the Year Award are Now Open

Board of Directors Nominations

The NFRC Board of Directors helps assure that NFRC continues to follow its mission of providing fair and accurate energy performance ratings for fenestration products. It is the Board that assures that ratings published by NFRC actually assist our stakeholders (building code officials, state energy offices, architects, specifiers, builders and the consuming public) in selecting, specifying, or evaluating fenestration systems in terms of energy efficiency. Board participation is an opportunity to contribute to the growth of NFRC. We encourage you to take advantage of your membership and help decide on NFRC's leadership.

NFRC is now accepting names/designees for four three-year positions. Members may nominate one qualified member for each of the following positions:

- General Interest – *(Specified, Federal, State or Local Government Energy Building Code Official)*
- General Interest – *(Unspecified)*
- Fenestration Industry -- *(Residential Manufacturer)*
- Fenestration Industry -- *(Unspecified)*

The nomination form and additional information on the category requirements can be found on the [nomination page](#).

Dariush Arasteh Memorial Member of the Year Award

Every year, this award recognizes the invaluable talents, achievements, and notable contributions that an NFRC member made to the fenestration industry in support of the mission of NFRC.

The winner will be presented with an award at the 2017 Fall Membership Meeting (San Diego, CA, September 25-27, 2017) and will have up to \$1,500 of their next meeting expenses covered by NFRC.

For more information on the selection criteria and to submit your nomination, please [click here](#).

All nominations must be received by Friday, August 11, 2017.

If you have any questions, please e-mail [Jessica Finn](#), NFRC Meetings and Membership Manager, or phone 240-821-9512.

NFRC envisions a future where every window, door, and skylight purchase decision is made using the NFRC label to evaluate energy performance.
