**SYMPOSIUM 2018**  
**Anaheim, CA**

**Advanced Training Techniques Seminar**

Training permanently captive animals for educational programs or public display requires a complex set of problem solving skills. This Seminar works to build on your experience with training captive species through a mixture of lecture and discussion groups. The teaching team leads participants through case examples and discussions to troubleshoot common problems using Operant Conditioning techniques. Attendees are encouraged to bring case examples and questions for discussion.

A working knowledge of Operant Conditioning training terms and techniques is required for this seminar. At least one year of experience working with captive species is recommended.

This Seminar is offered Saturday, March 3, 2018, from 12:30 pm to 4:30 pm and is limited to 30 people. SEMINAR SPACE IS FILLED ON A FIRST-COME, FIRST-SERVED BASIS. Cost is \$45 (refundable if full). ADVANCE PAYMENT IS REQUIRED with your Symposium registration.
