

Your new user experience

We have a new website on the way! Why? Because it will improve your user experience and make it easier for us all to communicate more proactively with each other and the outside world, which is a key part of our new 2030 strategy.

What can you look forward to as a member?

A better search functionality

Searching for useful resources, documents, guidelines and policies will be a lot faster with the new website.

Save favourites

Once you've found something interesting that you want to hold on to, simply click on the star icon on the top right of your page and add it to your 'favourites' for easy future reference.

Upload your own files

Upload your own important files and documents to your file library for future reference.

Make connections

Network with fellow veterinarians. Make connections and know what your colleagues are up to – an excellent way to stay in touch with that vet you went to school with.

Update personal information

Update personal details like change in name, change in email or your address easily with just a few simple clicks.

Dedicated areas for special interest and regional branches

In your dedicated special interest or regional branch group area, your committee can share special interest or region specific news with you; engage with you through blogs and forums; and plan and invite you to CPD and social events in your area.

Manage your own group

Group administrators can manage their group in their own time; be it uploading content, announcing an event, or sending out simple email communications to their group members... it can all be done through the website.

Committee collaborative space

Communicate online with your committee members in a secure manner. Collaborate, plan and store documents securely in your own resource libraries.

Renew your membership online

Join, renew or amend your membership online whenever or wherever you like. Makes membership renewal so easy.

Saves time

Because the website is bringing the entire database together, it will save the national office staff oodles of time spent on administration and processing and allow them to focus on NZVA's key projects and improvements. But they will still just be an email or phone call away if you need them.
