The ASHP Ambulatory Care Self-Assessment: Putting Practice Advancement into Action!

Jaclyn Boyle, PharmD, MS, MBA, BCPS
Innovations Pharmacist, Pharmacy Innovations, LLC
Assistant Professor for Community Pharmacy Innovation, Northeast Ohio Medical University
Objectives

By the end of this presentation, the listener should be able to:

- Discuss the ASHP Ambulatory Care Practitioner Self-Assessment
- Discuss the ASHP Ambulatory Care System Self-Assessment
Leading up to the Practice Advancement Initiative (PAI)

1. Hilton Head Conference (1985)
2. Pharmacy Practice Model Initiative Summit (2010)
3. OSHP develops Ohio PPMI (OPPMI) Steering Group
4. ASHP Ambulatory Care Summit (2014)
5. PPMI rebranded to the Practice Advancement Initiative (PAI)
6. OPPMI rebranded to the Practice Advancement Initiative of Ohio (PAI-O)

Which led to…
The Ohio Ambulatory Care Summit (today!)
The Ambulatory Care Self-Assessment (ASCA) Overview

- 2 separate assessments (different than the hospital self-assessment)
  - Practitioner self-assessment
  - System self-assessment

- Assessment should take 30 minutes – 1 hour to complete

- Should be completed by any site or practitioner providing *(or planning to provide)* outpatient pharmacy services (Hospital-based outpatient clinic (HBOC), Physician-based Outpatient Clinic (PBOC), specialty clinics, ACOs, PCMHs, etc.)
How does the ACSA compare to the HSA?

The ASCA Overview (con’t.)

Demographics

→

8 sections of Self-Assessment

→

Action Plan (Feasibility and Impact evaluation)
The ASCA Overview (con’t.)

Section 1: Program Development and Sustainable Business Models

Section 2: Pharmacist Training and Credentials

Section 3: Program Planning

Section 4: Patient-Care Delivery and Integration
The ASCA Overview (cont’d.)

Section 5: Patient Care Delivery and Integration

Section 6: Health Information Technology

Section 7: Pharmacy Technicians/Support Personnel

Section 8: Outcomes Evaluation
Benefits of completing the ASCA

- Provides baseline/internal benchmark for practice advancement in ambulatory care
- Determine alignment with ASHP Ambulatory Care Summit Recommendations
- References/resources to improve/expand upon existing opportunities.
- Create actionable items to focus on through the self-assessment process
- Contribute to strategic planning of department/health-system
Other cool stuff
Other cool stuff

Note: You will need your ASHP member ID to retrieve the “Completions By State” or “Bench Mark Report”
Key points about the Am Care Self-Assessment

- The assessment should be completed in its’ entirety
- The assessment should be revisited at regular intervals (annually?)
- The action plan should be completed following the self-assessment
- ASHP can provide comparative reports for multi-site health-systems
Student Pharmacists and Residents – Great opportunity to be involved!

- Ask your experiential or internship site if they’ve filled out the Am Care Self-Assessment
- Assist in completion if possible
- Student pharmacists: Discuss PAI and the Am Care Self-Assessment within SSHP Chapter (PAI week?)
- Residents: considerations for research projects & systematic evaluation of ambulatory care services
Fill out the Am-Care Self-Assessment today!

- Several computers available (thank you Sarah Day and OhioHealth for providing!)
Side note:

ASHP wants our feedback!

- If you have specific recommendations/feedback regarding your experiences in filling out the Am Care Self-Assessment (either version), please send an email to myself (jboyle2@neomed.edu) or Sarah Day (sarah.day@ohiohealth.com) so that we can aggregate this information.
