Re: Ohio House Bill 170 – Employee-no flu shot-employer not act against

Dear Chairman Young:

The Ohio State Chiropractic Association (“OSCA”) represents chiropractic physicians in Ohio. On behalf of the OSCA membership, I am writing to support passage of House Bill 170. While we believe employers should provide safe-guards for their employees, and in this case, for their patients, we also believe in an individual’s right to choose.

Please do not hesitate to contact me with questions.

Sincerely,
