General Conference Information

ABOUT PCNP
The Pennsylvania Coalition of Nurse Practitioners (PCNP) is the state association that represents the interests of more than 10,000 nurse practitioners across the Commonwealth. Composed of 18 regional groups and members-at-large, PCNP has been advocating for professional practice and improving access to high-quality healthcare since the 1980s. PCNP proudly offers the largest nurse practitioner educational conference in the state, and is dedicated to providing a dynamic event for attendees and exhibitors alike.

COURSE DESCRIPTION
The PCNP Annual Conference is a three-day conference offering current information to enhance the practice and professional development of nurse practitioners who care for patients across the lifespan. Both primary and acute care topics will be presented as well as workshops with hands-on learning. Networking opportunities are incorporated to enhance professional growth.

COURSE OBJECTIVES
Following the program, the participant will be better able to:

• Integrate evidence-based knowledge into clinical practice.
• Apply current pharmacotherapeutics into clinical practice.
• Verbalize understanding of current policies affecting NPs both regionally and nationally, including how to effect change.

ACCREDITATION/CONTINUING EDUCATION
This education activity will be submitted to the American Association of Nurse Practitioners for approval of up to 19.5 contact hours of accredited education.

POLICY ON FACULTY AND SPONSORSHIP
It is the policy of PCNP to have the faculty and sponsors disclose real or apparent conflicts of interest relating to the topics of the educational activity. Faculty and sponsors will also disclose discussion of unlabeled, unapproved uses of drugs or devices during their presentations.
