SUBJECT: Expansion of the Current Scope of Editing for Ordering/Referring Providers for Durable Medical Equipment, Prosthetics, Orthotics, and Supplier (DMEPOS) Suppliers Claims Process by Durable Medical Equipment Medicare Administrative Contractors (DMEMACs)

I. SUMMARY OF CHANGES: Section 1833(q) of the Social Security Act requires that all physicians and non-physician practitioners that meet the definitions at section 1861(r) and 1842(b)(18)(C) be uniquely identified for all claims for services that are ordered or referred. Effective January 1, 1992, a physician or supplier that bills Medicare for a service or item must show the name and unique identifier of the ordering/referring provider on the claim if that service or item was the result of an order or referral. The Centers for Medicare and Medicaid Services (CMS) is expanding the claim editing to meet the Social Security Act requirements for ordering and referring providers.

I. GENERAL INFORMATION

A. Background: The Centers for Medicare & Medicaid Services (CMS) is expanding the claim editing to meet the Social Security Act requirements for ordering and referring providers. The following are the only providers who can order/refer beneficiary services under the Medicare program:

- doctor of medicine or osteopathy
- dental medicine
- dental surgery
- podiatric medicine
- optometry
- chiropractic medicine
- physician assistant
- certified clinical nurse specialist
- nurse practitioner
- clinical psychologist
- certified nurse midwife
- clinical social worker

The claim editing is being expanded to verify that the ordering/referring provider on a claim is eligible to order/refer and is enrolled in Medicare. The editing expansion will be done in two phases.

Phase 1 –Common Electronic Data Interchange (CEDI) and Viable Medicare Systems (VMS) will receive a national file from the Provider Enrollment, Chain and Ownership System (PECOS) of only the physicians and non-physician practitioners who are enrolled in PECOS who are of the specialty eligible to order or refer under the Medicare program. Nightly thereafter, CEDI and VMS will receive a national PECOS file of newly added physicians and non-physician practitioners and of physicians and non-physician practitioners who were on the initial file or any nightly file whose data have been updated. When a claim is received, CEDI will determine if the ordering/referring provider is required for the billed service. If the billed service requires an ordering/referring provider and the ordering/referring provider is not on the claim, the claim will not be paid. If
