**Open Letter To All Independents**

**Dear Independents,**

This letter is designed to help you understand the situation we face and to give you the opportunity to work together to create a spirit of cooperation between the student and faculty members of our college.

From the perspective of some of you, our present system of affiliated fraternities at other colleges and universities seems to be working satisfactorily.

A fraternity is an organization that focuses on the promotion of college life and is designed to foster leadership. What are the benefits of a fraternity?

The professional men of today need not only that education which can be obtained at our college, but also, the ability to organize the efforts and achieve the aims of the college. This is the responsibility of the college and in the present crisis, the college and university needs you. It is either you or the fraternity that must be reorganized to achieve the goals of the college.
