"Hypnosis, expectancies, and behavior therapy"

---

SOCIETY FOR PSYCHOTHERAPY RESEARCH

The Society for Psychotherapy Research, sponsored by the Division of Psychotherapy of the American Psychological Association, was founded in 1968 as an independent organization dedicated to the scientific study of psychotherapy. Its purpose is to encourage the systematic study of psychological principles underlying personality and behavior change resulting from psychotherapeutic intervention. Through its annual meeting and related activities, it seeks to encourage informal exchange of information concerning research completed or in progress, discussion of theoretical and methodological issues, and improved communication among researchers.

Membership is open to all persons interested or engaged in the study of psychotherapy irrespective of theoretical orientation, professional affiliation, or philosophical commitment. You are cordially invited to join by applying to the conference registration desk or writing to: Dr. Curtis L. Barrett, Child Psychiatry Research Center, 608 South Jackson Street, Louisville, Kentucky 40201. Annual dues are \$10 to cover organizational and mailing expenses.

OFFICERS

David E. Orlinsky, President  
Hans H. Strupp, President-Elect  
Kenneth I. Howard, Past President  
Curtis L. Barrett, Secretary-Treasurer
