

## Webinar System Requirements

*Go-To-Meeting is the webinar delivery mechanism. Register through RIA for the webinar of your choice, and you will be sent a direct link where you will be prompted to RSVP for the webinar with Go-to-Webinar. Go-to-Webinar will automatically send you your specific login to the webinar (only one person may register off this personalized link). You will also receive periodic reminders from Go-to-Webinar about the time and date of your webinar.*

### **System requirements for PC-based participants:**

- Internet Explorer 7.0 or newer, Mozilla Firefox 3.0 or newer or Google Chrome 5.0 or newer (JavaScript and Java enabled)
- Windows 7, Vista, XP or 2003 Server
- Cable modem, DSL, or better Internet connection
- Minimum of Pentium class 1GHz CPU with 512 MB of RAM (recommended) (2 GB of RAM for Windows Vista)

### **System requirements for Mac-based participants:**

- Safari 3.0 or newer, Firefox 3.0 or newer or Google Chrome 5.0 or newer (JavaScript and Java enabled)
- Mac OS X 10.4.11 – Tiger or newer
- Intel processor (512 MB of RAM or better recommended)
- Cable modem, DSL, or better Internet connection

*Participants wishing to connect to audio using VoIP will need a fast Internet connection, a microphone and speakers. (A USB headset is recommended.)*

### **For Attendees with GoToMeeting app for iPad:**

- Free GoToMeeting app from the App Store
- Organizer must be using GoToMeeting v4.0 build 320 or higher
- WiFi connection to use VoIP
