About the Special Care Dentistry Association

Who are we?

The Special Care Dentistry Association (SCDA) is a unique international organization of oral health professionals who are dedicated to promoting oral health and well-being for people with complex needs. Our members provide general dentistry services such as cleanings, annual exams, root canals, implants and more, but it is their patient base which makes them truly unique.

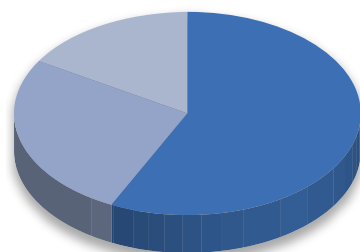

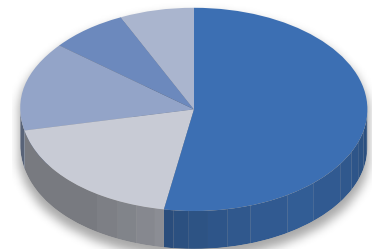

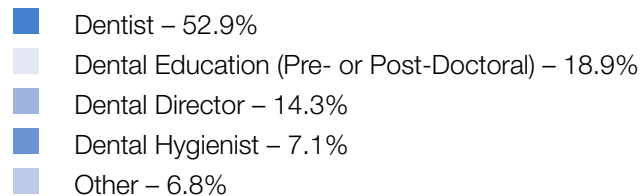

The term “patient with special needs” is used in the oral health field to describe an individual with physical, medical, developmental and/or cognitive conditions that impact their ability to receive dental services and prevent oral disease by maintaining daily oral hygiene.

What can we do for you?

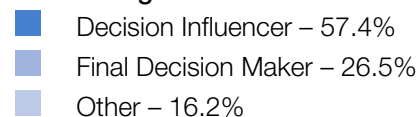

A recognized leader in the dental community, SCDA provides top-notch content and education to its members. Take advantage of the opportunity to reach this unique market of professionals in an intimate setting — from veterans in the profession to dental students and everyone in between.
