Infection Control in Long Term Care

Presented by:

Connie Steed, RN, CIC

Wednesday, May 30, 2007
9:00 AM - 4:00 PM
Radisson Hotel
Columbia, SC

6 Hours CEU (Applied for) with
SC Board of Long Term Health Care Administrators
About the Program

Prevention of healthcare associated infections represents one of the major safety initiatives a Long Term Care Center can undertake. This timely and informative program will provide you with the latest strategies for developing an effective infection control program. This program will assist you to effectively identify and implement standards to maintain regulatory compliance related to Infection Control Practices and empower staff to provide evidence-based, best practices.

Topics will include:

- Infection Control and Prevention to include evaluation and monitoring infection control processes
- Management of antibiotic resistant organisms such as MRSA, influenza and C. Difficile
- Key requirements of the OSHA Bloodborne Pathogens Standard
- Vaccination of Staff and Residents
- Management of “community-associated” infectious diseases outbreaks such as Noro Virus
- Infection Control and Pet Management

About the Presenter

Connie Steed, RN, CIC is a Nurse Epidemiologist in the Infection Control Department with the Greenville Hospital System. Her credentials include certification in Infection Control by the Certification Board of Infection Control and membership in the Association for Professionals in Infection Control and Epidemiology on both the local and national levels. She has authored and co-authored many publications and given numerous presentations on infection control.
