SOCIETY OF RADIOLOGISTS IN ULTRASOUND

24th Annual Meeting & Postgraduate Course

Register online at www.sru.org

OCTOBER 24 – 26, 2014
Denver Marriott City Center, Denver, CO

- Plenary session on new horizons in imaging with ultrasound, including elastography, CEUS and 3-D
- Keynote address on 3-D ultrasound by Dolores Pretorius, MD
- International Lecture by Richard D. Pitcher, MBChB of Capetown, South Africa
- A report from the consensus conference on ultrasound elastography for diffuse liver disease
- Sessions on musculoskeletal, vascular, abdominal, obstetrical, gynecological and thyroid imaging and pitfalls and practical challenges
- 25 workshops, five on pediatric imaging
- Earn AMA PRA Category 1 Credits™ or ARRT Category A Credits, and SAM credits

Learn From the Masters
Most lectures by Fellows of the SRU

ABR approval pending for SAMs on abdominal, gynecologic and vascular imaging

It is my pleasure to invite you to attend *Image Soundly*, the 24th annual postgraduate educational course of the Society of Radiologists in Ultrasound (SRU). The course will be held Friday through Sunday, October 24-26, 2014 at the Marriott City Center in Denver, CO, in conjunction with the society’s annual meeting.

The SRU has as its mission the advancement of the science, practice and teaching of ultrasound in radiology, advocating the use of this safe, reliable and accurate imaging modality to ensure the highest level of patient care. Sonography has a full armamentarium of new and exciting technologies such as ultrasound contrast agents, volumetric and fusion imaging and elastography techniques, to mention just a few, either already on the market or in the pipeline. We have many tools in our hands to explore new avenues to foster affordable diagnostic and therapeutic venues using ultrasound as one of the first and most effective imaging modalities.

The program presents a true opportunity to learn from the experts. Most presentations will be given by Fellows of the SRU. On Friday, October 24, the meeting will begin with a plenary session on new horizons in ultrasound, focusing on contrast-enhanced ultrasound, 3D ultrasound and elastography, and how to introduce these new technologies into your practice. SRU Fellow Dolores H. Pretorius, MD will present the keynote address, “3D Ultrasound: Where I Use it Today in Clinical Practice.” The International Lecture, by Richard D. Pitcher, MB, ChB of the University of Cape Town, South Africa, will focus on the role of sonography in clinical service provision in a large, multidisciplinary tertiary hospital in a low/middle-income country with a high burden of HIV, TB, trauma and non-communicable diseases. A report from the consensus conference on ultrasound elastography for assessment of diffuse liver disease will also be presented. The afternoon of October 24 will be devoted to two concurrent sessions, one on musculoskeletal imaging and one on obstetrical and thyroid imaging.

On Saturday, October 25, the morning sessions will include a session on vascular imaging and a series of 25 workshops. The workshop series will include five sessions, each focused on obstetrics, pediatrics, Doppler, abdominal and superficial imaging. Two concurrent Saturday afternoon sessions will focus on abdominal imaging and gynecological imaging. The meeting will conclude on Sunday morning, October 26, with a session on when ultrasound should be the first choice imaging modality, and pitfalls and practical challenges in imaging with ultrasound.

In addition to the opportunity to earn *AMA PRA Category 1 Credits™* and ARRT Category A credits for technologists, meeting attendees will also have the opportunity to earn SAM credits. The SRU will apply to the ABR for qualification of SAMs for the vascular, obstetrical and abdominal sessions.

SRU’s corporate partners will host a Friday evening reception to which all meeting attendees and their guests are invited. Corporate representatives will be on hand to demonstrate new equipment and technologies. Our corporate partners consider the SRU meeting to be one of the highlights of their year because it gives them the opportunity to mingle with SRU members in a relaxed atmosphere, and to demonstrate the latest in ultrasound technology.

The Marriott City Center is located in Downtown Denver, and in October the weather in Denver should be cool and pleasant. I am confident that you will find many opportunities for dining and leisure activities during your free time. Plan now to join me at the meeting. I look forward to seeing you.

With best regards,

Douglas L. (Rusty) Brown, MD, President
Target Audience
The program is designed to meet the needs of those practitioners of radiology who perform and interpret ultrasound examinations, sonographers who perform ultrasound under the supervision of a radiologist, and radiology residents and fellows. The sessions are also designed to meet the needs of general radiologists whose practice includes ultrasound.

Program Goals
The program will provide participants with the opportunity to

- review classic imaging findings for common and uncommon pathology in various subspecialty areas
- identify ultrasound image interpretation methods and how to avoid interpretation pitfalls
- analyze the latest approaches to imaging with ultrasound and correlate them with clinical outcomes
- critique new imaging technologies and determine how they may be successfully integrated into the clinical setting
- discuss common problems facing ultrasound practitioners and their possible solutions
- evaluate new advances in ultrasound research

Participation in the programs selected by the individual learner should improve his or her knowledge, skills, behavior and practice performance.

Continuing Medical Education Credits

Accreditation Statement
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American College of Radiology (ACR) and the Society of Radiologists in Ultrasound. The ACR is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement
The ACR designates this live educational activity for a maximum of 17.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Registry of Radiologic Technologists
The ACR is a Recognized Continuing Education Mechanism (RCEEM) for the American Registry of Radiologic Technologists (ARRT). This ACR educational activity is approved for 17 Category A credits.

American Registry for Diagnostic Medical Sonography
Sonographers will receive a certificate of participation and a list of the sessions they attended. The certificate will state that the course has been approved for AMA PRA Category 1 Credits™ and the number of credits that were offered.

Conflict of Interest Disclosure
Presenters at this activity will disclose any relevant financial relationships at the beginning of their presentation. In addition, the information will appear in the meeting syllabus.

Members’ Lunch and Business Meeting
A members’ lunch and business meeting will be held at 11:30 am on Saturday October 25. During the meeting a new member of the Executive Board will be elected and other society business will be conducted. The meeting is open to all dues-paying members of the society. Pre-registration is required.

Unknown Cases
Unknown cases will be displayed electronically in the meeting registration area. The correct diagnoses of the Friday cases will be announced on Saturday, and the correct diagnoses of the Saturday cases will be announced on Sunday.

Syllabus
The syllabus for the meeting will be distributed on flash drive. You may wish to bring your laptop with you to the meeting. Please note that limited power sources will be available in the meeting rooms, but free internet connectivity is not available in the meeting areas of the hotel.

Corporate Focus Sessions
SRU’s corporate partners will conduct focus sessions on Friday, October 24 at 6:45 am, 9:00 am and 12:00 pm. These sessions are an important part of the annual meeting. They serve as in-depth research and development think tanks, with SRU Fellows and general members providing expertise to guide future technology developments. By participating in the focus sessions you are providing a crucial service for furthering technological developments in the field of diagnostic ultrasound. Please indicate in the appropriate area on the registration form if you are willing to participate in a corporate focus session if asked. CME credit is not provided for the corporate focus sessions. Breakfast or lunch will be provided by the SRU.
Welcome Reception

A welcome reception will be held from 6:00 pm – 9:00 pm on Friday, October 24 in the hotel. The event is free to all meeting registrants and their guests. SRU’s corporate partners will sponsor the reception, and representatives will be on hand to greet attendees and demonstrate the latest ultrasound equipment and technologies.

Americans with Disabilities Act (ADA)

Individuals needing auxiliary aids or services as defined in the Americans with Disabilities Act (ADA) should contact Kathy Martin at 703-262-9317 or kmartin@acr.org.

Book Vendors and Societies

Book vendor and society displays will be located in the meeting registration area and will be open during program hours.

Membership Information

Board-certified radiologists who are engaged in or interested in the practice of diagnostic ultrasound are eligible for membership in the SRU. Membership is free for radiology residents and fellows and includes an online subscription to Ultrasound Quarterly. Applications are available in the meeting registration area. Individuals may also apply online at www.sru.org.

Hotel Information

The Denver Marriott City Center
1701 California St. Denver, CO 80202

To reserve a room at the Denver Marriott City Center, please call 800-444-2206 (303-297-1300 from outside the US and Canada) and request the Society of Radiologists in Ultrasound (SRU) rate. For online reservations, please visit the SRU website to connect to the hotel website.

- Room rate: $239 per night, single or double, plus 14.75% tax, which is subject to change.
- Reservation deadline: Rooms are available on a first-come, first-served basis. Reservations should be made prior to September 30, 2014. After that date, reservations will be accepted on a space-available basis and may not be available at the negotiated rate.
- Deposit: A deposit equal to one night’s stay is required to hold each reservation, and will be applied to the first night’s stay. The deposit may be made by credit card.
- Cancellation: If you wish to cancel your reservation, please notify the hotel at least 24 hours prior to arrival in order to avoid being charged one night’s room and tax.

FRIDAY
October 24, 2014

PLENARY SESSION
7:45 AM – 12:00 PM
New Horizons in Imaging with Ultrasound: How to Introduce Recent Advances into Your Practice
Moderators: Jill E. Langer, MD and Rochelle F. Andreotti, MD
CAT 1 Credit: 3.75
CAT A Credit: 3.50

7:45 AM – 7:50 AM
Welcome and Announcement of Distinguished Service and Larry Mack Award Winners
Douglas L. Brown, MD

7:50 AM – 8:10 AM
Incorporating Contrast Ultrasound into Routine Practice
Michelle L. Robbin, MD

8:10 AM – 8:30 AM
The Use of Contrast Ultrasound for Liver Applications
Stephanie R. Wilson, MD

8:30 AM – 8:50 AM
The Use of Contrast Ultrasound for Renal Applications
Edward G. Grant, MD

9:20 AM – 9:50 AM
KEYNOTE ADDRESS
3-D Ultrasound: Where I Use It Today in Clinical Practice
Dolores H. Pretorius, MD

9:50 AM – 10:00 AM
Member-in-Training Award Paper Presentation
Speaker to be announced

10:00 AM – 10:30 AM
Break

10:30 AM – 10:55 AM
Elastography: The Basics
Brian S. Garra, MD

10:55 AM – 11:20 AM
Elastography Applications
Richard G. Barr, MD, PhD

11:20 AM – 11:45 AM
Elastography in Diffuse Liver Disease
Giovanna Ferraioli, MD

11:45 AM – 12:00 PM
The SRU Consensus Conference on Ultrasound Elastography for Assessment of Diffuse Liver Disease
Deborah Levine, MD

AFTERNOON SESSION A
1:30 PM – 5:00 PM
Musculoskeletal Imaging
Moderators: Nirvikar Dahiya, MD and Jason M. Wagner, MD
CAT 1 Credit: 3.00
CAT A Credit: 3.00

1:30 PM – 2:00 PM
Ultrasound of the Shoulder
Nirvikar Dahiya, MD

2:00 PM – 2:30 PM
Ultrasound of the Wrist and Hand
Sharlene A. Teefey, MD

2:30 PM – 3:00 PM
Ultrasound of the Hip
Colin Strickland, MD

3:00 PM – 3:30 PM
Break

3:30 PM – 3:40 PM
Scientific Paper Presentation
Speaker to be announced

3:40 PM – 4:10 PM
Ultrasound of the Ankle and Foot
Humberto G. Rosas, MD

4:10 PM – 4:35 PM
Ultrasound of Superficial Masses and Fluid Collections
Jason M. Wagner, MD

4:35 PM – 5:00 PM
Ultrasound-Guided Musculoskeletal Procedures
Kenneth S. Lee, MD

AFTERNOON SESSION B
1:30 PM – 5:00 PM
Obstetrical Imaging and Thyroid Imaging
SAM Session*
Moderators: Phyllis E. Glanc, MD, Manjiri K. Dighe, MD, and Jill E. Langer, MD
CAT 1 Credit: 3.00
CAT A Credit: 3.00

1:30 PM – 2:00 PM
Early First Trimester: An Update
Carol B. Benson, MD

2:00 PM – 2:30 PM
Late First Trimester: Must-Know Diagnoses
Phyllis E. Glanc, MD

2:30 PM – 3:00 PM
Second and Third Trimester: Must-Know Diagnoses
Anne M. Kennedy, MB, BCh

3:00 PM – 3:30 PM
Break

3:30 PM – 3:40 PM
Consensus Conference on Fetal and Neonatal Renal Dilation
Carol B. Benson, MD

3:40 PM – 4:10 PM
Placental Evaluation: Beyond Previa
Paula J. Woodward, MD

4:10 PM – 4:35 PM
Controversies in the Selection of Which Thyroid Nodules Should Undergo FNA
Mary C. Frates, MD

4:35 PM – 5:00 PM
The Role of Genetic Testing in the Evaluation of Thyroid Nodules
Jill E. Langer, MD

6:00 PM – 9:00 PM
Opening Reception

---

*ABR approval pending for 1.5 SAM credits
## SATURDAY
### October 25, 2014
#### MORNING SESSION A
8:00 AM – 11:30 AM
**Vascular Imaging**

**SAM Session**

**Moderator:** Leslie M. Scoutt, MD
**CAT 1 Credit:** 3.25
**CAT A Credit:** 3.50

### 8:00 AM – 8:30 AM
**Arterial Stenosis Criteria: Problems and (A Few) Solutions**
Lawrence Needleman, MD

### 8:30 AM – 9:00 AM
**Beyond Peak Velocities: Waveform Interpretation in Carotid Ultrasound**
Mark A. Kliwer, MD

**Sonographic Evaluation of Hemodialysis Access**
Mark E. Lockhart, MD

### 9:00 AM – 9:50 AM
**Break**

### 9:50 AM – 10:00 AM
**Scientific Paper Presentation**
Speaker to be announced

### 10:00 AM – 10:30 AM
**Doppler US Evaluation of Renovascular Hypertension**
Margarita V. Revzin, MD

### 10:30 AM – 11:00 AM
**Doppler Ultrasound Evaluation of the Hepatic Vasculature and Liver Disease**
Ulrike M. Hamper, MD

### 11:00 AM – 11:30 AM
**Abdominal Varices**
Myron A. Pozniak, MD

### 11:30 AM – 1:00 PM
**Members’ Business Lunch**
(dues-paying members only, pre-registration required)

### Morning Workshops
Organizers: John P. McGahan, MD, Thomas C. Winter, MD and Harris L. Cohen, MD

**CAT 1 Credit:** 2.50 **CAT A Credit:** 2.50

Please Check One Box Below

☐ General Member
(Complete Part I)
$300.00 per year

A general member is a physician who is certified by the American Board of Radiology, the American Osteopathic Board of Radiology or the Royal College of Physicians and Surgeons of Canada or provides evidence of training, experience and certification judged to be equivalent by the Membership Committee. General members shall be engaged or interested in the practice of diagnostic ultrasound. General members shall be required to pay their dues in a timely fashion and then shall have full privileges of membership in the society, which include voting, serving on committees and holding elective office.

☐ Transitional Member
(Complete Part I)
$150.00 per year

A transitional member is an individual who has completed a radiology residency program that is accredited by the American Council of Graduate Medical Education or equivalent organization during the previous year, or who has completed such a residency program immediately followed by a post-residency fellowship program during the previous year. Transitional members shall be engaged or interested in the practice of diagnostic ultrasound. Transitional members shall be required to pay their dues in a timely fashion and then shall have full privileges of membership in the society, which include voting, serving on committees and holding elective office.

☐ Member-in-Training
(Complete Part II)
no dues

A member-in-training must be currently enrolled in a radiology residency or post-residency fellowship program that is approved by the Radiology Residency Review Committee of the American Council of Graduate Medical Education or an equivalent organization. Training status must be verified by the program director. Members-in-training shall not have the privilege of voting or holding elective office. Upon completion of training, a member-in-training will be offered general membership.

Application must be completely filled out and signed to be processed.

Membership is effective upon full payment of dues. Please allow 2-4 weeks for processing. Send your payment along with your completed form to:
