2015 STAT Award Winners Announced

AUSTIN, Texas – The Science Teachers Association of Texas (STAT) has named its 2015 STAT Award Winners. The winning educators will be honored at the Conference for the Advancement of Science Teaching (CAST), to be held November 12 – 14 in Ft. Worth, TX.

STAT members from across the state made nominations for **Outstanding Science Teacher of the Year**, awarded to elementary, middle and high school teachers for creativity in the classroom, excellent classroom management, and proper safety procedures.

This year's award winners include:

Outstanding Science Teacher of the Year (Elementary):
Toni Worden – Caddo Grove Elementary, (Joshua ISD)

Outstanding Science Teacher of the Year (Middle School):
Julie Frey – Trinity Valley School, (Ft. Worth, TX)

Outstanding Science Teacher of the Year (High School):
Thomas Delgado III – University of Texas-University Charter School System at Laurel Ridge (San Antonio TX)

All STAT awards winners will receive \$1,000 from award sponsor Chevron along with recognition during the CAST Friday night reception taking place at 6 pm in the arena at the Fort Worth Convention Center.

The reception will also feature the Newsboyz Band as well as a full stage set of “Minute to Win it” for teachers to win prizes. Reception attendance is open to all registrants of CAST – registration is still open for all three days or Saturday only at www.statweb.org.

About The Science Teachers Association of Texas (STAT)

STAT, founded in 1957, is a non-profit organization of elementary, middle, and high school teachers, college educators, and supervisors of science. As a resource for science education, STAT is dedicated to ensuring that all students are scientifically and technologically literate. STAT is a chapter of the National Science Teachers Association (NSTA) and serves as a unified voice and network for science teachers across the state of Texas. The organization informs members about current trends in science education and provides opportunities to view the latest in technology, curriculum, materials and services. STAT represents more than 7,200 members.
