Mission Statement

The Theriogenology Foundation is a global resource that supports education and research in reproductive medicine; ensuring that future generations of animals continue to enrich our lives through service, companionship, and food for a growing human population while conserving our natural resources.

From the pen of the president

When speaking to lay groups, I am often asked why we have the Foundation. Defining the scientific and societal relevance of what our Foundation does and how it connects and unites the SFT/ACT really boils down to this:

- It is a way of making a monetary contribution to our specialty with the help of our government. We’re a 501(c)(3) and that makes your donation tax-deductible.
- It is a way of assembling a smaller group of the ACT/SFT membership who has the time, expertise and commitment to focus on the needs of theriogenology students, research and marketing.
- It is a way of ensuring the continued investment into our specialty through the establishment of an endowment.
- It is a way of establishing credibility which attracts partnership opportunities with other like-minded organizations that align with our mission.
- It is a way of reaching out to others. To support SFT, we need to be veterinarians who pay to be members; to support the TF, you can be a client, a corporation, a family member or another nonprofit. We are all-inclusive.
- It is a way to build our cadre of specialists in the ACT through our partnerships which support post-graduate veterinary education.
- It’s a way to feel good about giving back.

Although entrepreneurial spirit and philanthropic tendencies may have a genetic basis, it still helps to teach those principles at an early age. Setting a good example may be the epigenetic mechanism needed to activate the genes of generosity. Now I understand why my mother wanted me to give half of my lemonade stand profits to the local cat shelter in 1965.

Thank you for your support!

Anita M. Migday, DVM, MS
President, Theriogenology Foundation
The Theriogenology Foundation is a global non-profit which believes that the preservation and reproduction of animals is essential to human welfare. By engaging specialists in animal reproductive health and productivity, the TF formulates and implements solutions to combat human and animal diseases which threaten food security and the social and economic health of the world’s population. Through the efforts of the TF, students have the opportunity to travel and participate in educational programs through specialized grants. Scientists have the resources to research and develop means of fighting disease to help the global economy develop healthier, self-sustaining food production practices, and veterinary practitioners are able to assist clients with animal reproduction through advances in theriogenology.

**Dr. David E. Bartlett Award for Lifetime Achievement in Theriogenology**

**Dr. Beverly Purswell**

Dr. Purswell completed her DVM degree in 1977 at the University of Georgia. After two years of private equine practice in Atlanta, Georgia, she returned to the University of Georgia where she completed a residency in Theriogenology (1979-1982) and obtained MS (1981) and PhD (1985) degrees in Immunology. She became a diplomate of the American College of Theriogenologists in 1983. She was on the faculty of the Virginia-Maryland Regional College of Veterinary Medicine 1985-2012 teaching canine and equine theriogenology. She was awarded the title of Professor Emerita in 2012. She continues to teach canine and equine theriogenology at St. Matthews University on Grand Cayman as a visiting professor. She has served as president of the Virginia Veterinary Medical Association in 1998 after serving on the Board of Directors starting in 1991. She was the Delegate from Virginia to the AVMA, 2000-2006. In 2004, Dr. Purswell received the Veterinarian of the Year Award from the VVMA. She served on the Board for the Society for Theriogenology and served as president in 1993. She was awarded the Distinguished Alumni Award from the University of Georgia in 2007. She served as interim department head for the Department of Large Animal Clinical Sciences Department (2004-2010). She has served as resident advisor for four residents. Dr. Purswell lives on a dairy farm in Blacksburg, Virginia, with her husband, Mac Wall. She raises Doberman Pinschers and Rocky Mountain horses. She enjoys fox hunting, trail riding, dog shows and agility trials.
TF Donor recognition

Contributions to the Theriogenology Foundation increase educational opportunities, support research and enhance the field of theriogenology.

Supporting our Future: Levels of Annual Individual Giving

<table>

</tr>
</tbody>
</table>

Donors will be recognized in the Foundation publication THERiver.

Rocky Mountain Society
This Society recognizes donors who have made an annual commitment to giving at the Supporter Level or higher for five or more consecutive years. The milestone years for recognition in the Society are 5, 10, 15, 20 and 25 consecutive years.

The 10 year level is known as the Dr. S. J. Roberts Circle of the Rocky Mountain Society.

The 20 year level is known as the Dr. David Bartlett Circle of the Rocky Mountain Society.

First-time Rocky Mountain Society members, or those reaching new milestones, will receive by mail a RMS welcome letter and lapel pin denoting the milestone period of consecutive year giving.

1954 Society
This Society recognizes donors whose legacy gifts play a key role in securing the future of the Theriogenology Foundation. These donors have remembered the TF with a lifetime income gift or as a beneficiary of a will, trust, retirement plan, or life insurance policy.

The 1954 Society is named for the year in which the Rocky Mountain Society for the Study of Breeding Soundness in Bulls (now the Society for Theriogenology) was organized. Circles within the 1954 Society provide for additional recognition opportunities:

The Legacy Circle honors donors whose cumulative lifetime giving totals between $60,000 and $100,000.

The Founders Circle honors cumulative lifetime giving that totals between $100,000 and $150,000.

The Inventors Circle honors cumulative lifetime giving that totals between $150,000 and $200,000.

The Fertile Circle honors cumulative lifetime giving exceeding $200,000.

An appropriate plaque and lapel pin will be presented for each level of recognition. Members of the 1954 Society will be invited to attend a private stakeholders reception at the Annual Conference and will receive updates on Foundation giving news.

You choose how to give

Planned Giving
Planned Giving provides the opportunity to donate to the Foundation through your trust, will, and other assets as you choose, to leave a legacy for a cause you are passionate about. The "Plan-a Gift" section on the TF website is particularly helpful for guidance on gift options. There are giving options for all levels and numerous tools for choosing the gift that best suites your needs. An attorney's counsel is also recommended.

Annual Giving
Your yearly contribution can be used to sustain existing projects or spearhead new research to advance the science and practice of animal reproductive medicine. You determine your level of giving and direct your contribution towards education, research or achievement recognition. Every donation counts!

Honor Gifts
Honor gifts serve as a meaningful way to recognize someone special while supporting the important work of the TF. Acknowledge the accomplishment of a friend or family member with an honor gift. Celebrate a special event, birthday or anniversary in the life of someone important to you. Make a tribute to an animal which has made an impact in the life of someone you know. A letter acknowledging your gift will be sent to the recipient.

Memorial Gifts
A memorial gift can be made to recognize the loss of a beloved family member, friend or colleague. Memorial gifts pay tribute to the individual by affirming their passion for science, education and the continued advancement of knowledge in our specialty. The Foundation will notify a designated contact in writing to both acknowledge your donation and convey sympathy for their loss.

Corporate/Club Gifts
Corporations and organizations may contribute to the Foundation’s general fund or may restrict their donation to champion a specific project or species.

Creative Giving
Use your creativity, motivation and commitment to launch a TF fundraising event through your hobby club, book club, sports team, office or service group. Share your personal triumphs and passions for running, swimming, baking or biking by making it a fundraising event that includes friends and family.

Therio Raffle Tickets
The Annual Therio Raffle funds help support the TF and offers participants the opportunity to win a free registration to the next years’ Therio Conference, a three night hotel stay and event tickets. Only 100 tickets will be sold for $100 each. The drawing is held at the Therio Awards Dinner, you do not have to be present to win. Available online anytime!

Therio Auction Support
Annually, the Foundation conducts a silent and live auction during the Therio Conference. This event has become a great fundraiser for the foundation. If you cannot attend, you can submit a sealed bid form on any item you choose. Visit www.theriofoundation.org to view items and submit you sealed bid form.
2015 Therio Conference Fundraising Events

2015 Silent and Live Auctions

The 7th Theriogenology Foundation Silent Auction will be held this year at the 2015 Therio Conference. Books, textbooks, photographs, paintings, gift baskets, jewelry, novelty items, specialty wine and prized one-of-a-kind collectibles can all be purchased. These items are posted on the Foundation website for review. The Foundation’s Live Auction will be held immediately following the Awards Dinner on Friday, August 7. Take a moment and review the items listed on these two pages; you can place a sealed bid if you are unable to attend. Proceeds from the auction will go to benefit students, residents, student chapters and others with travel grants, research projects and outreach.

Can’t make it to the conference? - you can still place a bid on auction items

Take advantage of the online silent bid form for 2015 auction items. Just visit the Theriogenology Foundation website at www.theriofoundation.org and complete the sealed bid form on the items you choose. Your silent bid will be presented during the auction and you will be notified if you are the winner. Sealed bid forms will be accepted through July 24, so place your bid today.

Raffle Tickets

How would you like to donate $100 and possibly have your 2016 conference package paid for? Raffle tickets are on sale now to raise money for the Theriogenology Foundation and the winner will receive a free conference registration for 2016 (in Asheville, NC, July 27-30). Three nights of the winner’s hotel at the beautiful Grove Park Inn in Asheville will be paid for, along with a travel stipend. Plus the winner will receive one Fun Night ticket and one Awards Dinner ticket. And the investment could be tax deductible. Tickets are available through the TF website, through the Therio Conference office or onsite at the registration desk. Only 100 tickets will be sold, get yours before they disappear!

2015 Live Auction Items

Greensprings, Oregon: High Mountain Luxury

Donated by Dr. Gail Colbern

Four night stay in the Greensprings, a lovely mountain community east of Ashland, Ore. The Greensprings is located in Southern Oregon, at an altitude of 3,000 - 5,000 ft. It is known for its history (the Applegate Trail and homesteading), logging, hunting, fishing and the independent character of its residents. Recreation includes fishing, hunting, boating, river rafting, hiking (the Pacific Crest Trail runs adjacent to the Colbern property) and horseback riding. Stay will occur on a mutually agreed date and includes a signed photograph of a Greensprings sunrise by Dr. Colbern. Also includes $100 gift voucher to the Oregon Shakespeare Festival in Ashland. For more information on the plays, please see the Oregon Shakespeare Festival website at www.osfashland.org. Also includes a one-day wine tour in the Rogue and Applegate Valleys.

LaGrange, Wyoming: Old West Ranch Experience

Donated by Dr. Woody Bartlett

Ride over 80,000 acres of Wyoming ranch land, participate in a colt starting clinic taught by Bill and Carol Smith, stay in a renovated ranch house with all the modern amenities, and eat at a real chuck wagon. See antelope, deer, badgers, hawks, and eagles to name a few of the wild animals on the ranch. Several thousand head of cattle and several hundred horses are on the ranch. Web site: www.bartlettranch.com/ranchWY.cfm

Green Bay, Wisconsin: Green Bay Packers vs Chicago Bears

Donated by Dr. Anita Migday

Former Green Bay Packer’s Quarterback Brett Favre will have his iconic #4 jersey enshrined in Lambeau’s Ring of Honor, at the NFL’s most legendary venue, amidst football’s oldest rivalry, on Thursday night, November 26th, 2015. It’s Packers/Bears! The view will be from precisely the 50 yard line, 13 rows from the turf. No worries about game day traffic - take the shuttle to the game and back from your two room suite with fireplace (three night stay Wed./Thurs./Fri.), at the Radisson Hotel and Conference Center. The Oneida Indian Casino is attached and available for great breakfast, recreation and celebrity watching. If you’re going to stay in Green Bay, this is where the glitterati stay.
Asheville, NC: Fly Fishing Trip
Donated by Jason and JoAnn Randall

One day guided fly-fishing near Asheville, North Carolina the Sunday after the SFT Conference in 2016. (Conference dates July 27 - 30) Includes all fishing equipment needed, transportation to the river, guides for the day, instruction (if needed) and shore lunch for two.

Pewter Horse Statue
Donated by Dr. Peter Ryan

“Free Spirits” pewter sculpture by artist Michael Ricker, (September 1940-January 2006) who was known for his work with pewter. This particular piece can be found at the following link: http://www.ricker.com/index.cfm?fuseaction=category.display&category_ID=242. Copy #83 (limited edition of 100)

Equine Palpator Model
Donated by Veterinary Simulators

This model is perfect for teaching equine palpation. A rear portion Quarter Horse model is constructed with epoxy/fiberglass creating a soft, durable perineum panel. The model has an inflatable latex rectum (with pump); artificial, removable tail; polyurethane pelvis replica and palpable soft uterus with cervix, urethra, and broad ligaments. It contains three sets of easily interchangeable ovaries (anestrus, estrus, and estrus with follicles) and includes a storage case.

Pulsator IV complete electronic ejaculator unit
Donated by Lane Manufacturing, Inc

The Pulsator IV is the only machine on the market with a five-year warranty! It has three programs, manual, program, and learn, that allows the operator complete control during the ejaculation process. The complete package comes with the Pulsator IV, charger, power supply, one probe (your choice of size), two probe cords, scrotal tape, semen collection handle, 100 disposable cones, 100 disposable vials, carrying case, and instructions.

Sterling Silver Navajo pearls and horse pendant
Donated by Anonymous

Shop for the horse enthusiast on your list now - this is a lovely necklace with authentic Navajo pearl beads and a stunning sterling silver horse head pendant.

Tequila Package
Donated by Dr. Steven Brinsko

Solórzano Extra Anejo Tequila - Solórzano tequilas are 100% Blue Weber agave tequilas where the pinas are baked in traditional brick and stone ovens in a three day process.

The agave nectar is fermented in stainless steel tanks with what they describe as “wild yeast.” Solórzano añejo tequila is the “aged” (anejo) expression from the label, which comes from aging in American oak barrels for two years. They say that “Patience and daily care truly stand out in this highly sought after tequila.”

Also included in the package are two books - Tequila - A Guide to Types, Flights, Cocktails, and Bites and Tequila and two types of tequila tasting glasses. Tequila blues - rustic, hand-blown glasses from Mexico with a dark blue rim. Set of six. Tequila Glasses by Ouverture are made of lead free German crystal. Set of six.

Robert Youngquist
Sherrie Clark, DVM, PhD, Diplomate ACT visited Washington State University’s College of Veterinary Medicine (WSU-CVM) on April 16, 2015. Dr. Clark is an associate professor at Virginia-Maryland’s College of Veterinary Medicine and specializes in swine reproduction. A large number of students expressed an interest in expanding on the limited exposure to swine reproduction received during training at WSU-CVM and Dr. Clark graciously agreed to lecture and discuss important aspects of swine reproduction in practice.

On April 16th Dr. Clark provided two lectures to students within the veterinary curriculum, including members of the Student Chapter of the Society for Theriogenology and their Student Externship Grant. During this externship, I mainly worked with Dr. Kloppe for the aspects of equine reproduction including stallion semen evaluation, breeding, foaling, handling problem breeding mares, embryo transfer and etc. I observed the ultrasound examination for monitoring the growth of follicles, teasing, and artificial insemination. The doctor would perform uterine culture and cytology to check the soundness for breeding the mare.

Being able to witness the birthing event was really amazing! To ensure a smooth and successful delivery, every boarding pregnant mare was put on a foaling alarm monitor. With the aid of the monitor, doctors and I would be alerted when the mare’s water broke. Thus, we were able to monitor and assist in the birthing process if necessary.

We would milk the mare and tube the foal with colostrum if the foal failed to nurse in time. We also waited for the mare to pass the placenta and checked for anomalies. On the next day, the doctor would perform examination of newborn foal and mare including foal IgG test, dipping navel, and check whether the foal had passed the meconium. Sometimes the foal would be given plasma transfusion and enema, if needed.

Occasionally, we saw some cases which could be prevented with proper monitoring, like dystocia, retained placenta and etc. By seeing lots of reproduction cases during this five-week externship, it made me confirm that I would like to seek for further training in theriogenology and contribute to this field. Thank you again for the support of Theriogenology Foundation!
On Sunday March 29th, the doors of the ARC Pavilion on the UC Davis campus opened to an eager 140 dog breeders waiting for an exciting day. Each found their nametag waiting on the registration table individualized with a picture of their beloved dog breeds. They hurried to their seats so that they could sit as close to the front as possible. As the start time approached, the ballroom filled with more voices; some were saying hello for the first time while others greeted friends from the past.

The microphones turned on and there was a request for silence from Corinna Esdorn and Amy Buck, both vice presidents of the UC Davis’ chapter of Theriogenology. “We would like to thank you for all coming,” their voices rang out and there was a hush from the crowd.

Then it was lunchtime and on this blooming spring day everyone was able to enjoy his or her Panera lunch out in the courtyard. After lunch, it was back into the ballroom for the last lectures given by Dr. Stuart Meyers who reminded us that we were all once “the fastest, most amazing sperm,” Dr. Kris Gonzales who gave wonderful wisdom on whelping management, and the head of the UC Davis School of Veterinary Medicine Theriogenology Service, Dr. Bruce Christensen who spoke about female infertility. Overall, the whole day was not only “a great learning experience,” but fun for those involved. We hoped as two of the organizers that each person walked away with a smile on their face and new knowledge to use in the future.

Thank you all for a wonderful day!
Amy Buck, Corinna Esdorn, Jenna Dinstell and Kelly London

Upcoming events
The Theriogenology Foundation will partner with UPenn to host a Breeder’s Excellence Academy at Penn Vet. The date is still to be determined so please check the TF website for more information as details are being finalized.

Please contact Roberta Norris at 334-395-4666 or Roberta@Franzmgt.com if you are interested in putting together a regional breeders education meeting for your area.
2014 Financial summary

Financial breakdown from January 1, 2014 through December 31, 2014

We are most grateful for your financial support of the Theriogenology Foundation, providing $314,136 during this 12 month period.

Every contribution made to the Theriogenology Foundation moves us toward our goal of expanding research and knowledge in the field of theriogenology. Continued contributions provide support of the Foundation’s goals in future years. The generous support of the Society for Theriogenology and the American College of Theriogenologists covers most of the costs related to operating the Foundation, so that almost 96% of funds expended went to directly support programs. Administrative costs (website, office supplies, accounting and board meetings) totaled 2.4% and fundraising expenses (brochures, planned giving, postage, credit card fees on donations) were 1.9%.

Your tax deductible support and philanthropic investment enables us to make a huge difference in the advancement of our specialty. There is no gift too great or too small, and the Foundation is continually adding new programs to offer you ways to donate that meet your specific needs, such as our Planned Giving options. Visit www.theriofoundation.org or contact the Foundation office for more information.

Be part of the future of theriogenology!

Donating to the Theriogenology Foundation

Did you know that there are several ways that you can make a donation to the Theriogenology Foundation that will not affect your current lifestyle, or will even pay you an income? You can leave benefits from a Retirement Account, Life Insurance policy, real estate or personal property (collectibles, art, books). Take advantage of the many creative ways to benefit yourself, your beneficiaries and the Theriogenology Foundation while saving tax dollars in the process. Please take a moment to explore the Planned Giving page on the Theriogenology Foundation's website, http://therio.plannedgiving.org. There are worksheets available and additional information to help you consider all of the options.

Gifts that pay you income

Which life-income gift best fits your needs?

- Charitable Gift Annuity
- Deferred Gift Annuity
- Charitable Remainder Unitrust
- Charitable Remainder Annuity Trust
