

Women in Titanium 2018

Thank you for your interest in Women in Titanium Committee.
Whether you are participating in events, attending meetings or just donating to the committee, your contribution is warmly appreciated.

Please complete the contact fields below and let us know how you would like to participate.

Please fill out the below contact information

Name: Company: Title:

Email: Phone: Fax:

Mailing address:

Are you interested in receiving the WiT Newsletter? Yes No

May we text you with updates and reminders on the events you have selected? Yes No

If you answered yes to receiving text message updates please provide your mobile #: _____

As a thank you for your registration in the 2018 Women in Titanium Events, we would like to offer you a very special gift.

Please see page 4 for your choice of gift and the available options.

Important Information about your registration:

We understand your time is precocious and we want to offer you flexibility.

Your registration for 2018 Women in Titanium is inclusive of all WiT meetings and events. Your registration fee allows you the ability to attend any or all of the meetings, receptions, teleclasses and tours that fit your schedule. If you select an event in your registration and then are unable to attend, you can simply let us know and select another event that better suits your schedule.

Additional fees are applicable for participation in Fundamentals Workshops offered at WiT events. Registrations for workshops are separate from WiT. If you would be interested in participating in a Fundamentals workshop please contact the ITA for more information

Questions? Please contact the ITA by phone: 303-404-2221, fax: 303-404-9111, or email: KGraziani@titanium.org for assistance.

Women in Titanium 2018

Women in Titanium Events Selection:

Please select the events you will plan to attend below

Sci-Tech Days at Carnegie Science Center in Pittsburgh, PA	March 6-9, 2018 – 9:00 AM – 2:00 PM
Join Jill Adkins and Dawne Hickton at the Sci-Tech Days at Carnegie Science Center. Dates are March 6-9, 2018 and are open from 9:00 AM to 2:00 PM daily.	
How to Handle Criticism like a Pro Teleclass	March 12, 2018 – 4:00 PM EST
<p>Special Guest: Leila Janah, Founder and CEO of Sama and LXMI.</p> <p>Whether you are building a startup, selling products in the field or presenting to a team of management by putting yourself out there you are left exposed to harsh criticism. Successful serial entrepreneur and business leader Leila Janah learned this when her LXMI team courted a major retailer to distribute their product. Instead of becoming disheartened, however, they took the outside input and shifted their approach. In this 30 minute teleclass, Leila Janah, Founder & CEO of LXMI and Sama, will share the techniques she used to remain positive in the face of adversity and ultimately achieve success. Learn how to handle criticism and use it as a tool for growth, regardless of your organization's stage of development. Detailed agenda and information will be updated soon.</p>	
STEM Career Fair for HS Students, Fermilab National Accelerator, Batavia, Ill USA	April 18, 2018 –CST
Holly Both, Plymouth Tube and her team has a table at STEM Career Fair for HS Students, Fermilab National Accelerator. 5:30 - 8:30pm CST

Women in Titanium 2018

Our Gift to You:

Please select one of the following complimentary gifts:

Original Women in Titanium Wrap or Men's Fashion Tie

This beautiful Tassel Scarf is 100% woven polyester with Tassel trim, 72" x 27". The image shown on the scarf and the tie is a photograph of Ti-6Al-4V, heated above the beta transus and air cooled. Then etched with ASTM #186 and photographed in polarized light with sensitive tint plate to produce the colors. The photograph was generously donated by Frauke Hogue, Hogue Metallography (hoguemet.com). Images can be found on the website below.

WiT 2nd Generation Scarf

Scarf design is an image of the top of a 10,000 lb. Titanium Molybdenum Alloy (Ti - Mo-15) ingot. This ingot was made by Arconic Ti-Ingot in Whitehall, Michigan USA. This alloy is typically used to make medical components. The vivid colors you see in the macrostructure of this ingot are the result of the reflection of light bouncing off the differing oxidation states of titanium. Scarf is made from Paris Chiffon - material likes to be treated by hand, so no machines please! Just wash by hand and hang to dry. Scarf will happily be ironed out with steam. Images can be found on the website below.

WiT Logo Polo Shirt

Designed from Land's End and fit not too tight or too loose. The fabric has a hint of stretch so it's extra comfortable, excellent quality and built to last. 97% cotton / 3% spandex. Machine wash. Variety of colors offered.
