Forensic Photography

Ryan M. Rezzelle, MFS, CSCSA
Wednesday, June 14, 2017
2:00pm–3:30pm (Eastern)

This webinar will cover general photography methods, forensic aspects of photography, and specific methods which should be applied in SANE cases. The specific methods will include scale photography of injuries, the use of forensic light sources for revealing latent evidence, and depth-of-field/lens/focus concerns with intra-cavity photos (including photography related to the use of a speculum).
