CLARIFICATION OF TOURNAMENT RULES

- **REDFISH** – A legal Redfish (Red Drum) must be at least 20" and not greater than 28". This is the size of the Redfish you are allowed to weigh in for the tournament. If you catch one smaller than 20" you are required by law to release it.
- **TROUT** – A legal Trout (Spotted Sea Trout) must be at least 15". If you catch one smaller than 15", you are required by law to release it. (The same trout can not be used for both stringer weight and largest trout prize.)
- **FLOUNDER** – A legal Flounder must be at least 14", any Flounder smaller must be released. The Alamo Surveyors Fishing Tournament will only judge a Flounder that is greater than 15" for the Flounder category.
- **FISHING LICENSE** – You must have a valid/current fishing license with a saltwater stamp from Texas Parks and Wildlife to fish in this tournament. If you catch a Redfish that is greater than 28", and you want to keep it, you need to put a tag (part of your license) on this fish. Each angler is allowed one of these per year. If you purchase a 5/10 day license, it will not have a tag, which means you cannot keep a Redfish that is greater than 28" in length. Please make sure that you fish this tournament by all the rules that are enforced by Texas Parks and Wildlife, citations for not observing these rules are very expensive and could just ruin your day!
