Involved with local church

Brief Biography:

I worked my first urgent care shift in October of 1997. I have been part of the industry in some way since then. I became a full time urgent care physician in 2004 and currently spend the most of my work hours in administration. I do however make it a point to still see patients. I love the practice and management of urgent care medicine. Hopefully you can see from my list of urgent care activities, I also dedicate much of both my free and work time to participating in and benefiting the urgent care industry. My first 3 years on the UCAOA board have been work, but also very enjoyable. My fellow board members, our staff and volunteers have been actively improving our organization and what it can do for us, the members. Hopefully you have noticed. There is much more to come and I respectfully request a chance to continue to be part of the team that brings it to you. Our industry continues to grow and change rapidly. If re-elected I will continue to work hard to represent all of you and assure UCAOA provides our members the tools we need to succeed.
