Today's Farms Need Specialized Environmental Coverage

Pollution & Environmental Liability Insurance for farms has changed more in the last 2 years than it had in the previous 20.

Recognizing these changes and the overwhelming concern from the dairy industry, American Risk Management Resources (ARMR) has worked with the insurance carrier Crum & Forester to bring a DBA specific Wisconsin Farm Environmental Insurance Program policy to DBA members and their insurance agents.

Available discounts on a policy written through ARMR

- ◆ 10% discount for writing a two-year pollution policy
- ◆ 5% discount for writing an annual pollution policy

To price out the pollution discount, please contact your **local farm policy agent** or Harrison Scheider at American Risk Resources Network LLC.
