Welcome to the Gem State – Idaho!

The 79th Annual Western Orthopaedic Association Meeting will for the first time be in Coeur d’Alene, Idaho. You will be staying on the shore of beautiful Lake Coeur d’Alene receiving both education and enjoyment. You, your friends, and your family will enjoy the magic of this wonderful resort. To get a first look, access www.cdaresort.com. Really! It will only take a moment to see what is in store.

First, the educational experience will follow the 79 year tradition of the Western Orthopaedic Association’s top notch orthopaedic educational focus. Dr. Payam Tabrizi has put together a terrific series of up to date presentations so that you will earn up to 25 CME credits. The whole range of orthopaedic topics will be discussed. You will leave with a much greater collection of options for all sorts of musculoskeletal problems. As before, there will be a self-assessment examination that you can use to gain even more certification.

For the top presentations, WOA will present 7 abstract awards to residents and 3 abstract awards to Young Investigators. The top 2 resident awards will be presented at the 2016 Annual Meeting of the American Academy of Orthopaedic Surgeons.

To include your friends’ and families’ interest in the presentations, we have brought forth several top-notch speakers for everyone to enjoy and learn from. The Steel Lecture will be performed by Dr. Kevin Leman and we are extremely lucky to have him return. Perhaps his best description is “He brings common sense to common problems.” You and your compatriots can come see this for yourself! You will go away stronger!

The Presidential Guest Speaker will be Dr. Doug Jackson. He will be discussing how leadership works, what the future may hold, and what we can prepare for. As he states; “The good, the bad and the ugly – you pick!” As I personally know, he has “Been there – done that” when it comes to “orthopaedic-evolution.” A great topic and a great speaker.

During my Presidential Discussion, I have a few comments to make, and also will have Dr. Blair Filler talk about the history of the WOA, the stresses and strains over the past decade, and how to avoid any “bumpy organizational roads” in the future. The Western is in great shape now, much thanks to his efforts.

Also during my Presidential Discussion there will be a presentation video and discussion by John-Curtiss Paul. “J.C.” is an extremely experienced and talented WW2 era airplane pilot, as well as a great presenter of how to focus on the valuable nuggets of life. It will be something you will never forget. Also, J.C., along with me, will be giving rides in WW2 airplanes for those who want to see Coeur d’Alene from the air! Sign up quickly, as there will be a limit on seats in the cockpits.

So, the word to use for Coeur d’Alene - the hotel, the lake, the incredible golf course, the wonderful town, the Silverwood amusement park, and so many other attractions – is magic! Come with your family and compatriots and have a first-class educational experience with a lifetime memory of enjoyment. The Western Orthopaedic Association has put it all together into a fantastic package.

Again, the word is magic! I hope to see you there.

Sincerely,

Paul Collins
