WIB | Highlights

Women In Bio at the BIO International Convention

WIB hosts a Networking Reception, a premier event for WIB members and supporters, at the BIO International Convention. WIB also hosts Meet-Ups in the Exhibit Hall of the convention to bring together women in the life sciences.

Young Women In Bio

This inspiring WIB program organizes science events for middle-school girls introducing them to careers in the life sciences. WIB partners with biotech companies to open their doors and allow the enthusiastic girls to learn the science and business of their company operations.

WIB Professional Development & Educational Series

WIB regularly hosts workshops, seminar and webinars that are available online. Members build skills and competencies for professional development and career satisfaction.

Women In Bio Scholarship

Each year, scholarships are awarded to WIB members to advance the educational development of women in the life sciences industry by encouraging and supporting education on the business aspects of life science. The money can be applied towards workshops, conferences, courses, seminars and other similar educational programs. Recipients are announced and presented at their local chapter's holiday party.

WIB | Committees

Women In Bio committees support the professional and personal growth of WIB members and the organization as a whole.

Communications Committee

Promotes the over arching strategic plan of the WIB organization by developing and delivering timely, predictable, and professional communications in support of WIB committees and activities.

Funding Committee

Contacts potential sponsors and identifies grant opportunities. WIB is a growing organization with many opportunities for sponsors.

Program (Events) Committee

Plans and carries out numerous local events. Also includes Young Women In Bio events, programs designed to encourage middle school girls to consider careers in bioscience.

Young Women In Bio

Programs are designed to encourage girls in middle school to learn about careers in the bioscience industry.

Membership Benefits Committee

Builds and maintains the WIB membership by coordinating membership-related activities at events and interacting with individuals interested in joining WIB.

Mentors, Advisors, Peers (MAP) Committee

The MAP program is a group peer-mentoring program consisting of like-minded women and experts who meet in a casual setting to discuss relevant issues. The discussions are open and typically focus on building skills and knowledge.

WIB | Chapter Locations

WIB currently has 10 active chapters and is poised for continued growth throughout the U.S. and internationally. WIB is planning to launch other chapter around the world. If you are interested in starting a chapter in your area, contact info@womeninbio.org to learn more.
