**Activity Description and Objectives**

**Friday, November 10, 2017**

**Keeping Up with the Kinetics: A Review of Clinical Pharmacokinetics**

Faculty: Daniel Hu, Pharm.D., Critical Care and Emergency Medicine, Providence St. Peter Hospital  
ACPE # 0130-0000-17-096-L04-P | Conflict of Interest: None  
Friday, November 10, 8:00 AM - 9:30 AM | 1.5 hr. | Activity Type: Application | Room: Chehalis Salon E  
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Student Pharmacists  
At the completion of this activity, the participant will be able to: For Pharmacists

- Discuss basic clinical pharmacokinetic concepts of absorption, distribution, metabolism, and excretion  
- List the variables used in calculating creatinine clearance  
- Describe potential pitfalls in calculating creatinine clearance  
- Evaluate patients for dose adjustment needs in the setting of renal failure  
- Describe basic one-compartment and multi-compartmental concepts in clinical pharmacokinetics  
- Describe basic linear and non-linear concepts in clinical pharmacokinetics  
- Evaluate patients for drug toxicities  

This activity will use review Clinical Pharmacokinetics using interactive case- based studies and Kahoot.

**The Role of New Agents in Type 2 Diabetes**

Faculty: Alvin Goo, Pharm.D., Clinical Associate Professor, University of Washington School of Pharmacy  
ACPE # 0130-0000-17-097-L01-P&T | Conflict of Interest: None  
Friday, November 10, 8:00 AM - 9:30 AM | 1.5 hr. | Activity Type: Application | Room: Chehalis Salon F  
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists  
At the completion of this activity, the participant will be able to: For Pharmacists

- Explain the mechanism of newer agents in type 2 diabetes  
- Identify major side effects of newer agents in type 2 diabetes  
- Critically interpret primary literature supporting newer agents in type 2 diabetes  
- Discuss benefits and disadvantages of newer agents in type 2 diabetes  
- Propose which patient populations would greatly benefit from newer agents with type 2 diabetes  

At the completion of this program, the participant will be able to: For Technicians

- Identify new agents for treating type 2 diabetes  
- List common side effects for the newer agents  
- Discuss benefits and disadvantages of newer agents in type 2 diabetes  
- List reasons why some patients may benefit from a newer agent

Small group discussions will be conducted to identify the role of newer agents in type 2 diabetes.

**Pharmacists as Medical Providers: A How to Guide**

Faculty: Jeff Rochon, Pharm.D., CEO, WSPA and Jenny Arnold, Pharm.D., BCPS, Director of Practice Development, WSPA  
ACPE # 0130-0000-17-098-L04-P&T | Conflict of Interest: None  
Friday, November 10, 8:00 AM - 9:30 AM | 1.5 hr. | Activity Type: Knowledge | Room: Chehalis Salon D  
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists  
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians

- Develop a strategy for providing patient care compensated by medical insurance  
- Demonstrate how to enroll in the provider networks of health plans  
- Describe differences between pharmacy claim billing and medical claim billing processes. Identify and solve software and workflow gaps in existing systems  
- Articulate the value of pharmacists as patient care providers

Washington Pharmacists have a unique opportunity to bill the same as other health care providers to for providing care to patients. However, it can be difficult to understand where to start, what services can be billed, and if all the
Key Elements of USP Chapter <797> and USP Chapter <800>
Faculty: Annie Lambert, Pharm.D., Pharmacy Manager, MultiCare Health System and Erika Anderson, CPhT, Lead Sterile Compounding Technician, Harrison Medical
ACPE # 0130-0000-17-099-L03-P&T | Conflict of Interest: None
Friday, November 10, 9:40 AM – 11:10 AM | 1.5 hr. | Activity Type: Knowledge | Room: Chehalis Salon E
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians
- Describe key elements of USP <797>
- Describe key elements of USP <800>
- Discuss the current and future regulatory requirements related to sterile and hazardous drug compounding

This activity will review and discuss key elements of USP Chapter <797> and USP Chapter <800>.

Using Drugs Wisely: How Pharmacists Can Improve the Lives of Patients with Heart Failure
Faculty: Erik Kellison, Pharm.D., BCPS, BCACP, Clinical Pharmacist, CHI Franciscan Health
ACPE # 0130-0000-17-100-L01-P | Conflict of Interest: None
Friday, November 10, 9:40 AM – 11:10 AM | 1.5 hr. | Activity Type: Knowledge | Room: Chehalis Salon F
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Student Pharmacists
At the completion of this activity, the participant will be able to: For Pharmacists
- Distinguish between pharmacotherapy for management of HFrEF, HFpEF, and HFrecEF
- Identify inappropriate pharmacotherapy in the management of CHF
- Demonstrate ability to safely and effectively initiate and adjust sacubitril/valsartan
- Identify candidates for and select pharmacotherapy to rectify iron deficiency in patients with symptomatic CHF
- Justify the role of a pharmacist in care transitions from hospital to home and SNF to home

Pharmacists as Medical Providers: A Panel of Experience
Faculty: Jenny Arnold, Pharm.D., BCPS, Director of Practice Development, WSPA, Jeff Rochon, Pharm.D., CEO, WSPA, Patricia Lambro, Pharm.D., BCACP, Pharmacy Director, Peninsula Community Health Services; Xuan Le, PharmD, BCACP, CACP, Ambulatory Pharmacist, EvergreenHealth, Natalie Dearing, Pharm.D., BCACP, Clinical Pharmacist, Ambulatory Care, CHI Franciscan Health, Tara Pfund, Pharm.D., SW Washington Clinical Staff Pharmacist, PGY1 Residency Program Director, Fred Meyer Pharmacy, Kirk Heinz, R.Ph., Owner, Kirk’s Pharmacies
ACPE # 0130-0000-17-101-L04-P&T | Conflict of Interest: None
Friday, November 10, 9:40 AM – 11:10 AM | 1.5 hr. | Activity Type: Application | Room: Chehalis Salon D
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians
- Assess valuable steps for billing for services
- Collect a variety of experiences to apply to their practice setting
- Develop a strategy for implementation of pharmacists as providers
- Compare differences in processes between settings

This panel of pharmacists who have successfully taken steps to bill for patient care will share their experiences, successes and challenges. During the panel, participants will learn key differences in processes based on practice setting, what services have successfully been billed and ask questions of the panel.

Chemical Dependency and the Pharmacy Profession
Faculty: William Rhodes, MSW, CDP, Program Manager, WRAPP- Washington Recovery Assistance Program for pharmacy
ACPE # 0130-0000-17-102-L05-P&T | Conflict of Interest: None
Friday, November 10, 12:40 PM - 1:40 PM | 1.0 hr. | Activity Type: Application | Room: Chehalis Salon E
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians
- Consider both legal and ethical responsibility with regard to reporting suspected drug diversion and suspected impairment
• Develop a working awareness of the history, philosophy, and legal basis for the advocacy work of WRAPP in providing support and recovery assistance to pharmacy professionals whose ability to practice pharmacy with judgment, skill, competency and safety to the public may be impaired due to chemical dependence on alcohol or other drugs, emotional illness, the aging process or loss of memory and motor skills

• Identify the role that you personally can play and the actions you will take to promote awareness of the recovery services of WRAPP

The purpose of this presentation is to inform participants of the history, philosophy and working advocacy of WRAPP in providing support and recovery assistance to pharmacy professionals whose ability to practice pharmacy with judgment, skill, competency and safety to the public may be impaired due to chemical dependence on alcohol or other drugs, emotional illness, the aging process or loss of memory and motor skills. Participants will develop an understanding of the Impaired Pharmacist Rehabilitation Rule and the WRAPP Referral and Monitoring Process.

Through consideration of a case study, participants will examine their legal and ethical responsibilities with regard to reporting suspected drug diversion and suspected impairment and consider enabling behaviors in the workplace. Following completion of this presentation, participants will have adequate information to actively promote advocacy for pharmacy professionals in Washington state.

Community Practice Academy
Moderator: Steve Singer, R.Ph., Pharmacist, Bellegrove Pharmacy
ACPE # 0130-0000-17-103-L04-P&T | Conflict of Interest: None
Friday, November 10, 12:40 PM - 1:40 PM | 1.0 hr. | Activity Type: Knowledge | Room: Chehalis Salon F
Target Audience: Community Ambulatory Pharmacist, Technicians, Students
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians
• Discuss the ISMP Community Pharmacy Self-Assessment
• Evaluate current trends in pharmacy practice
• Propose and discuss specific issues and needs pertaining to your practice setting
• Update peers on state and federal legislative/regulatory issues pertaining to pharmacy
• Discuss strategies to reinforce a more patient-centric mission for your profession

This CE program is designed to target the needs of pharmacists, technicians and interns working in Community Practice pharmacy settings. We will discuss the current issues affecting pharmacy practice in general throughout Washington State as well as how these issues relate to this practice setting. Participants will be encouraged to contribute their thoughts in this active program.

Independent Pharmacy Academy
ACPE # 0130-0000-17-116-L04-P&T | Activity Type: Knowledge | Disclosure: None
Moderator: Michael Donahue, R.Ph. FACA, Pharmacist/Owner, Bob Johnson's Pharmacy
Friday, November 10, 12:40 PM - 1:40 PM | 1.0 hr. | Room: Chehalis Salon D
Target Audience: Independent, Pharmacists, Technicians, Students
At the completion of this activity, the pharmacist and technician will be able to:
• Discuss current trends in pharmacy practice
• Propose and discuss specific issues and needs pertaining to practice

This activity is designed to target the needs of pharmacists, technicians and interns working in an independent pharmacy setting. We will discuss the current issues affecting local pharmacy practice in general as well as how these issues relate to this practice setting. Participants will be encouraged to contribute their thoughts in this interactive program. Also, we will have a discussion of the OIC Appeals process for PMB claims.

Health Systems Academy
Moderator: Christopher Greer, R.Ph., Pharmacy Manager, St. Luke's Rehabilitation
ACPE # 0130-0000-17-104-L04-P&T | Activity Type: Knowledge | Disclosure: None
Friday, November 10, 1:50 PM - 2:50 PM | 1.0 hr. | Room: Chehalis Salon E
Target Audience: Health Systems, Pharmacists, Technicians, Students
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians
• Discuss current trends in pharmacy practice
• Propose and discuss specific issues and needs pertaining to health system practices
• Update peers on state and federal legislative/regulatory issues pertaining to pharmacy

This CE program is designed to target the needs of pharmacists, technicians and interns working in Health System pharmacy settings. We will discuss the current issues affecting local pharmacy practice in general as well as how these issues relate to this practice setting. Participants will be encouraged to contribute their thoughts in this interactive program.

Long Term Care Academy
Moderator: Steve Boulanger, R.Ph., FASCP, Consultant Pharmacist, Mercury Pharmacy Services and Danielle Briones, Pharm.D., Director, Consonus Pharmacy Services
ACPE # 0130-0000-17-105-L04-P&T | Activity Type: Knowledge | Conflict of Interest: None
Friday November 10, 1:50 PM - 2:50 PM | 1.0 hr. | Room: Chehalis Salon F
Target Audience: Long Term Care Pharmacists, Technicians, Student Pharmacists
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians
• Evaluate current trends in pharmacy practice
• Propose and discuss specific issues and needs pertaining to your practice setting
• Update on state and federal legislative/regulatory issues pertaining to pharmacy
• Discuss strategies to reinforce more patient-centric mission for your profession

This CE program is designed to target the needs of pharmacists, technicians, and interns working in Long Term Care pharmacy settings. We will discuss the current issues affecting pharmacy practice in general throughout Washington State as well as how these issues relate to this practice setting. There will be updates on ASCP, Legislative Issues and Geriatric Care. Participants will be encouraged to contribute their thoughts in this interactive program. Danielle will discuss is that the rules re-write is still in progress and therefore people should be familiar with the statutes and if being inspected otherwise, they should know what to reference. Judi L. Mar-Burbidge will be doing an update on the National ASCP current initiatives. Daniel Hu will discuss Dosing and Kinetic practical thoughts in the geriatric population.

Technician Academy: Medication Reconciliation
Faculty: Wendy Keck, Pharm.D., BCPS, Pharmacist, Good Samaritan Hospital
Moderator: Bridgett Edgar, CPhT, Technician, Vice-President, Pharm-A-Save, Monroe and Dianna Fish, CPhT, Technician, Pharmacy Recruiter, Fred Meyer
ACPE # 0130-0000-17-106-L04-P&T | Conflict of Interest: None
Friday November 10, 3:00 PM – 4:00 PM | 1.0 hr. | Activity Type: Application | Room: Chehalis Salon E
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians
• Describe the importance of medication reconciliation
• Discuss the elements of an effective pharmacy technician based medication reconciliation program
• Explain the necessary patient interview tactics and questions needed to obtain a complete medication list from a patient
• Explain the different tactics used by pharmacy technicians to obtain complete and accurate medication lists
• Show the importance of pharmacist review of pharmacy technician obtained medication lists
• Discuss the evolution of a long-standing pharmacy technician based medication reconciliation program
• Give examples of common errors occurring on medication lists
• Demonstrate patient interview techniques while obtaining medication lists

Medication reconciliation occurs at all levels of patient care and pharmacy technicians play an integral part. Come learn about the importance of medication reconciliation, patient interview techniques, steps needed to create a successful program and common errors to look for while obtaining medication lists.

Ambulatory Care Academy
Moderator: Andrea Corona, Pharm.D., BCACP, CDE, Director, PGY2 Ambulatory Care Pharmacy Residency Faculty Pharmacist, St. Peter Family Medicine Residency Program
ACPE # 0130-0000-17-107-L04-P&T | Activity Type: Knowledge | Disclosure: None
Friday November 10, 3:00 PM – 4:00 PM | 1.0 hr. | Room: Chehalis Salon F
Target Audience: Ambulatory, Community, Technician, Students
At the completion of this activity, the pharmacist and technician will be able to:
• Evaluate current trends in pharmacy practice
• Propose and discuss specific issues and needs pertaining to your practice setting
• Update peers on state and federal legislative/regulatory issues pertaining to pharmacy

This CE activity is designed to target the needs of pharmacists, technicians and interns working in Ambulatory Care and Clinic settings. We will discuss the current issues affecting pharmacy practice in general throughout Washington as well as how these issues relate to this practice setting. Participants will be encouraged to contribute their thoughts in this interactive program.

**Adult/Child CPR & AED**
Faculty: CPR Seattle
ACPE # 0130-0000-17-108-L05-P&T | Conflict of Interest: None
Friday, November 10, 1:50 PM - 3:50 PM | 2.0 hr. | Activity Type: Application | Room: NW Territory A and B
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians
• Asses a patient for emergent intervention
• Administer CPR and the Heimlich maneuver to children and adults
• Identify aspects of effective CPR
• Obtain CPR Certification

There is an additional $34 fee for attending this CE. Once completed you will get your CPE certificate.

**Student Academy**
No CE offered for this activity
Moderator: Jenny Arnold, Pharm.D., BCPS
Friday, November 10, 4:00 PM - 5:00 PM | 1.0 hr | Room: NW Territory C
Target Audience: Students, pharmacists and technicians

In this interactive session, students will interact with providers from a wide variety of practice settings and experiences to learn from and connect with.

**Saturday, November 11, 2017**

**Current Issues in Pharmacy Practice**
Faculty: Jeff Rochon, Pharm.D., Chief Executive Officer, Washington State Pharmacy Association and Kirk Heinz, R.Ph., Owner, Kirk’s Pharmacies
ACPE # 0130-0000-17-109-L04-P&T | Conflict of Interest: None
Saturday, November 11, 8:00 AM - 9:30 AM | 1.5 hr. | Activity Type: Knowledge | Room: Chehalis Salon B and C
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this activity, the participant will be able to: For Pharmacists and Technicians:
• Discuss state and federal legislative/regulatory issues pertaining to pharmacy practice in Washington State
• Describe current positive and negative trends in pharmacy practice
• Describe the priorities of the Washington State Pharmacy Association

This program is designed to educate members on the current events pertaining to the Washington State practice of pharmacy in the last year and near future. Members are encouraged to voice their opinions and hear those of others in this interactive session.

**Keynote: Deceit and Self Deception: A Primer for Pharmacy Professionals**
Faculty: Robert Trivers, Ph.D., Evolutionary Biologist, Retired
ACPE # 0130-0000-17-110-L04-P&T | Conflict of Interest: None
Saturday, November 11, 9:40 AM – 11:10 PM | 1.5 hr. | Activity Type: Knowledge | Room: Chehalis Salon B and C
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this program, the participant will be able to: For Pharmacists and Technicians:
• Develop an understanding of the correlation between the successful deceit of others and survival in nature
• Develop an understanding of self-deceit in the service of the deceit of others in humans
• Develop a mastery of the logic of self-deception
• Develop an understanding of the large array of evidence regarding self-deception in human interactions, including in pharmacy

Deceit is prevalent in nature. Organisms attempt to deceive other organisms, such as an insect evolving to resemble a tree branch in order to avoid being consumed by birds, in order to enhance survival chances. And in more complex organisms, self-deceit serves to enhance an organism's ability to deceive other organisms, which evolutionary biology has termed "self-deceit in the service of the deceit of others." Despite some survival advantages imparted to organisms by the aforementioned, there can be associated risks, often to the health and survival of the self-deceiving organism. These risks correlate to aspects of healthcare, such as addiction and lifestyle choices, such as dietary intake in the case of type 2 diabetes. This presentation will serve as a primer on the subject of self-deception within and outside the framework of caring for patients and help members of the pharmacy profession begin to construct a new lens through which to view the patients they are trying to help as well as the world around them, both professional and social and themselves, so that they may better understand themselves in the service of better helping their patients.

Washington Law Update
Faculty: Steven Saxe, R.Ph., FACHE, Executive Director, Pharmacy Quality Assurance Commission, Washington State Department of Health
ACPE#: 0130-0000-17-111-L03-P&T | Activity Type: Knowledge | Disclosure: None
Saturday, November 11, 1:20 AM -2:50 PM | 1.5 hr. | Room: Chehalis D and E
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent Pharmacist, Technician, Students
At the completion of this program, the participant will be able to: For Pharmacists and Technicians
• Describe how to apply new laws and rules to pharmacy practice
• State how to put patient safety and pharmacy care first while adhering to pharmacy law
• Identify the Commission’s agenda for new and updated areas of practice regulation
• Recall the pharmacy practitioners’ responsibilities for new and updated regulations

This program will discuss application of new laws and regulations. Topics will include new state requirements for licensure, handling of hazardous drugs, practices requiring commission approval, compounding and more.

FAQ’s on Abused Substances
Faculty: Cris DuVall, BA, MS, Pharm.D., Pharmacist, RiteAid
ACPE # 0130-0000-17-112-L05-P&T | Conflict of Interest: None
Saturday, November 11, 1:20 PM - 2:50 PM | 1.5 hr. | Activity Type: Application | Room: Chehalis Salon F
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this program, the participant will be able to: For Pharmacists and Technicians:
• List illicit drugs used in Washington state
• Identify commonly abused drugs
• Describe strategies for exposure of patients to toxic doses

According to the CDC’s most recent data for Washington state, 8.1% of external causes of death in 2015 were due to “accidental poisoning by and exposure to other and unspecified drugs, medicaments and biological substances;” 6.7% to “narcotics and psychodysleptics (hallucinogens);” and 3.6% to “antiepileptic, sedative-hypnotic, antiparkinsonism and psychotropic drugs not elsewhere classified.” Experts agree that this epidemic continues. Arm yourself with knowledge against today’s war on drugs in this engaging presentation delivered in a group participation format.

Suicide Awareness and Referral for Pharmacy Professionals
Faculty: Jennifer Stuber, Ph.D., Associate Professor, UW School of Social Work, Faculty Director, Forefront: Innovations in Suicide Prevention and Jenny Arnold, Pharm.D., BCPS, Director of Pharmacy Practice, WSPA
ACPE # 0130-0000-17-091-L05-P&T | Activity Type: Knowledge | Disclosure: None
Initial release date: 9/6/2017 | Expiration date: 9/6/2020
Saturday, November 11, 3:00 PM -6:00 PM | 3 hrs. | Room: Chehalis Salon D and E
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent Pharmacist, Technician, Students
At the completion of this program, the pharmacist and technician will be able to:
• Recognize suicide’s impact in communities
• Describe pharmacy professional’s role in suicide prevention
• Education all patients to make home safer
• Prevent suicide professionally and personally using the LEARN steps.

This three-hour comprehensive training will provide pharmacists with tools to identify people at risk of suicide and intervene to prevent suicide. Drs. Stuber and Singer will use their comprehensive knowledge of suicide and psychiatric illnesses to simplify suicide prevention into something every pharmacy professional can do. This training is intended to fulfil the 3-hour training required of Washington State licensed pharmacists, but is applicable to all pharmacy professionals.

Hypertension Guidelines and Clinical Application
Faculty: Patricia Lambro, Pharm.D., BCACP, Pharmacy Director, Peninsula Community Health Services
ACPE # 0130-0000-17-113-L01-P&T | Conflict of Interest: None
Saturday, November 11, 3:00 PM – 4:30 PM | 1.5 hr. | Activity Type: Application | Room: Chehalis Salon F
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this program, the participant will be able to: For Pharmacists
• Discuss current guidelines for hypertension management
• Apply guidelines to design therapies for presented case studies
• Describe hypertension self-management strategies
• Identify opportunities for pharmacist participation in hypertension management and prevention

At the completion of this program, the participant will be able to: For Technicians
• Discuss current guidelines for hypertension management
• Review principles of therapy selection for hypertension as reviewed in presented case studies
• Describe hypertension self-management strategies
• Identify opportunities for pharmacist and pharmacy participation in hypertension management and prevention

Review of current hypertension guidelines and discussion of clinical application. Will also discuss opportunities for a pharmacist’s role in hypertension management and chronic disease state prevention.

Optimizing Communications and Connections Between Physicians and Pharmacists
Faculty: Andrea Corona, Pharm.D., BCACP, CDE, Director, PGY2 Ambulatory Care Pharmacy Residency Faculty Pharmacist, St. Peter Family Medicine Residency Program and Kevin Haughton, M.D., Family Physician, Providence
ACPE # 0130-0000-17-114-L04-P&T | Conflict of Interest: None
Saturday, November 11, 4:40 PM - 6:10 PM | 1.5 hr. | Activity Type: Knowledge | Room: Chehalis F
Target Audience: Community, Ambulatory, Health Systems, Long Term Care, Independent, Technicians, Student Pharmacists
At the completion of this program, the participant will be able to: For Pharmacists and Technicians
• Explain the benefits and challenges of prescriber-pharmacist communication
• Identify one change in communication habits of prescribers and pharmacists that would improve the provision of patient care
• Establish a plan to discuss how collaborative care can increase the quality of patient care with at least one stakeholder

As the role of pharmacists evolve, establishing a relationship of trust and open communication with other prescribing providers is paramount to improving patient care. This session will provide an opportunity to explore best practices and opportunities for developing an ideal communication system between prescribers in the clinic setting and pharmacists in the community.
Meeting Information

The Washington State Pharmacy Association is accredited by the Accreditation Council for Pharmacy Education as a Provider of continuing pharmacy education.

Technician or Pharmacist Accredited CE
The CPE programs accredited for pharmacists will have a designation of “P” next to the ACPE number. CPE activities accredited for technicians will have a “T”. For example, “ACPE # 130-000-17-045-L04 P&T” is accredited for both pharmacists and technicians.

CE Requirement – Secret Codes and Online Evaluation
At the end of each CE presentation, you will be provided with a secret code. There will be two different codes – one for pharmacists and one for technicians. The secret codes provided should be entered as all lower-case letters, as the system is case-sensitive. To receive credit for the activity, you will need to follow the Live Event CE Upload Instructions (found in your packet) then go on-line to the WSPA Education Portal and submit your secret codes plus evaluation for each CE program you attend. A few days after completing the upload you should confirm that they are all showing in your CPE Monitor. We will have staff and computers available during the meeting to assist you with the upload. Please feel free to ask a WSPA staff member for assistance.

In order to process your CE credits, you must provide your correct NABP e-Profile ID number and your birth month and day (MMDD format). The NABP e-Profile ID number is a six to eight-digit number, and it is NOT your license number, NPI number, or store NABP#. If you need to verify your number or have not yet registered for one, please visit www.MyCPEMonitor.net. You will only have 60 days to upload your CE credits from the convention date. ACPE will not allow any uploads after the 60 days, so any issues will need to be resolved before then.
