New Drugs New Laws 2017 is the perfect way to stay current and tune up your medication and legal knowledge. This meeting focuses on the new medications approved over the last year, and also provides a comprehensive review of new and old laws and regulations that impact pharmacy practice. These activities are designed for all pharmacists, pharmacy technicians, and student pharmacists in any practice settings and provide 8 CPE hours, including 6 hours of law CE. Dr. Terri Levien will start the day with an analysis of the New Drugs and REMS in 2017. The rest of the morning will include staff from the Pharmacy Quality Assurance Commission presenting on new laws and regulations for 2017.

The afternoon will start with Dr. Rachael Ream discussing laws and regulations for pharmacists as medical providers. The afternoon will conclude with pharmacy law professor emeritus Dr. William Fassett and professor Dr. Tom Hazlet leading a discussion style review of current legal issues impacting the practice of pharmacy.

In order to receive CE credits, participants must provide the correct NABP e-Profile ID number and their birth month and day (MMDD format). At the end of each CE presentation, participants will be provided with a secret code. Participants must go on-line to submit the secret codes and evaluation for each CE activity attended. The CE credit will then be uploaded to the CPE Monitor and attendance of CE can be tracked through that system.

The Washington State Pharmacy Association is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.
