

## Instructions for Viewing *Medical Encounter* on Your Mobile Device

For iPads and iPhones:

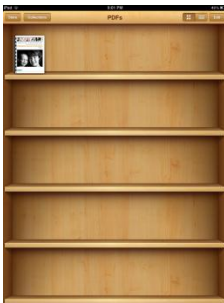

NOTE: You can view *Medical Encounter* using iBooks or by downloading the free Kindle app (V. 3.5 is the latest) through your device's app store.

1. Access *Medical Encounter* either through the link in the email sent to you or by going to <http://www.AACHonline.org/?page=MOTC> and clicking on the cover photo to open the PDF document.
2. Once the PDF is open, click "Open In" and select iBooks or Kindle:

3. If you select iBooks, the document will appear in your bookshelf, and when opened, it appears as below. You can swipe to turn the page, skip to certain pages, search for key words, highlight text, and add a bookmark.

4. If you select to view the PDF using Kindle, it will appear as below, with the ability to swipe to turn the page and skip to certain pages.

For Android Phones and Tablets:

Note: Android OS 2.2 is required to run the latest version (V. 3.5) of Kindle for Android. If you are running Android OS 2.1 you can still download Kindle for Android 3.2 from the Android Marketplace.

1. Download the free “Kindle for Android app” through the Android Marketplace.

2. Access *Medical Encounter* either through the link in the email sent to you or by going to <http://www.AACHonline.org/?page=MOTC> and clicking on the cover photo to open the PDF document.

3. The following screen should appear. Complete action using Amazon Kindle.

4. You can swipe to turn the page, skip to certain pages, search for key words, highlight text, and add a bookmark.
