Bibliography (with search terms) of Fraternity and Sorority Research
Academic Journals and Dissertations
2009-September, 2014

Center for the Study of the College Fraternity
Indiana University
Indiana Memorial Union Suite 371
Bloomington, IN 47405

The present bibliography was compiled for the Center for the Study of the College Fraternity by t.jelke solutions using standard library search engines available at Indiana University as well as the Zotero© research management and sharing tool. The main research effort was organized by t.jelke solutions CEO, Thomas B. Jelke, Ph.D. and conducted by t.jelke solutions Research Associate and Indiana University Libraries’ Head of Research Services, Courtney Greene McDonald, M.L.S.

Special thanks to Gregory Parks, J.D., Ph.D. and Gentry McCreary, Ph.D. for reviewing the query results and providing additional items to the final bibliography.

The Center continues to encourage authors, researchers in all fields, and other stakeholders to submit additional works on the college fraternity and sorority. Maintaining a complete bibliography of useful information includes esoteric documents that often are not published in the printed literature.

All stakeholders invested in working with the undergraduate fraternity and sorority members are encouraged to use the Center’s resources found at www.Indiana.edu/~cscf/.
