

### **Potential Mentoring Partner Choice Criteria**

Use the following when considering who you should partner with in the Faculty Mentoring Partner program:

- Institutional setting (e.g. research vs. teaching; size/load)
- Research and/or teaching and/or service interests
- Academic career experience
- Non-academic career experience
- Demographic similarity
- Personal preferences (e.g. if a major focus is work/life balance, would it make sense to pair people with similar life circumstances/preferences...kids, partner, etc.)
