

Connections Summit 2018 | A Look Back

-  Record number of participants at the AIM Industry Group Meetings
-  AIM Industry Groups mapped out their plans and projects for 2018 and beyond which include such projects as IoT Security, SmartCities, Track & Trace Economies whitepapers; Postal Technical Document; Revised DotCode standard, and much more.
-  AIM chapters around the world are enthusiastic with the prospect of new business and the growing use of AIDC technologies in their regions.
-  Google Cloud executive Antony Passemard (Head of Product Management), opened the Summit with a session on expectations of IoT; reduce risk, optimize cost, and grow.
-  Raghu Das, CEO, IDTechEx, was the events second keynote and addresses the trends and opportunities in the global AIDC space.
-  Each track was packed full of user case stories presented by both the vendor and the customer.
-  Many speakers shared personal stories and why they are so passionate about the use of our technologies is so important in various vertical markets.
-  Engagement, networking, and collaboration were plentiful.
-  Summit and Chapter Presentations will be available within the next few weeks.
