ARTICLE XIV DISSOLUTION
In the event of dissolution, the assets and property of the corporation remaining after payment of expenses and the satisfaction of all liabilities shall be distributed as determined by the Executive Board or as may be determined by a court of competent jurisdiction upon application of the Executive Board, for the non-profit purposes of the corporation and/or to such charitable, literary, and educational organizations as shall qualify under Section 501c3 of the Internal Revenue Code of 1954, as amended. Any of such assets not so distributed shall be disposed of for such purposes as directed by a Justice of the Supreme Court of the State of New York or such other court having jurisdiction over the corporation.
Duties of AMATYC Delegates

Responsibilities of the Delegate Assembly
1. To vote on all dues changes as submitted by the Executive Board.
2. To vote on constitution changes approved by the Executive Board prior to submission for membership ratification.
3. To present written recommendations to the Executive Board to be considered at the following Executive Board meeting.
4. To approve position statements as presented by the Executive Board. Policy-making procedure has been formalized. Each committee chair submits statements (position statements, etc.) to the AMATYC Editing Director. Following its approval, the statement can be submitted to the Executive Board for its review. An open hearing is then held at an AMATYC conference. The statement is then brought before the Delegate Assembly. If the Delegate Assembly approves, the statement will then become AMATYC policy. The Delegate Assembly has the option of overriding a Board decision if 2/3 of the AMATYC delegates present approve bringing it to the Delegate Assembly for vote. Documents submitted must have the word "draft" written on every page until approval is granted.

Duties of state/province delegates
1. Attend Delegate Assembly (no reimbursement).
2. Appoint campus representatives for the colleges assigned to him/her by the Regional Vice President.
3. Actively solicit membership in AMATYC, especially membership of campus representatives.

5. Assist the Regional Vice President in updating the directory of two-year colleges in his/her state/province.
6. Furnish the Regional Vice President with a calendar of activities and concerns of members from the state/province for possible inclusion in the regional page of the AMATYC News.
7. Encourage articles for the MathAMATYC Educator and other AMATYC publications.

Duties of campus representatives
1. Assist the state/province delegate in promoting the activities of the association at his/her campus.

4. Keep the Regional Vice President aware of the changing curriculum patterns at his/her college by sending news related items to the assigned delegate.
5. Furnish the Regional Vice President items of interest from his/her school for the AMATYC News according to schedule.
6. Encourage colleagues to submit articles to the MathAMATYC Educator.
7. Solicit AMATYC institutional membership at home institution.
Rules of Conduct for AMATYC Delegate Assembly

**Debate**
Three microphones are set up for participant use. On the left and right sides of the room are pro and con microphones, respectively. In the middle is the “process” microphone. The middle microphone is used to make an original motion, to call for the question, to clarify, or to rise to a point of order. If the maker of the original motion wishes to speak to the motion, he/she may do so after the motion is stated by the chair. In the interest of time, the maker of the motion only may speak to the motion from the center microphone. All other speakers, pro and con, must use the pro and con microphones. All persons who speak must give their name and delegate status before speaking.

Amendments and motions to table are considered “con” and must be made from the con microphone. Debate begins with the maker of the original motion. Debate alternates between pro and con with the maker of the original motion considered pro. When there are no speakers left, debate ends and the vote is taken. No speaker may speak to a motion more than two times. *Time limits* may be imposed on debate either by the chair or by a vote of the body. *An initial limit of five minutes will be used.*

Only members of the Delegate Assembly are permitted to sit at the front of the room. Delegates must have delegate passes in order to vote.

**Other Times (no motion on the floor)**
The rules above are in effect any time a motion is on the floor. If no motion is under consideration, speakers may use any of the three microphones.

**Open Discussion**
Open discussion by delegates at the end of the Delegate Assembly is encouraged. At this time, delegates may present appropriate topics for consideration.

Topics presented must be clearly related to the purposes of AMATYC. The president shall interrupt and rule a speaker out of order if remarks do not lie within these guidelines.

A two-minute limit per delegate is observed. After hearing the topic and rationale, the president may open discussion on the topic, move to the next topic, or assign the topic to an appropriate committee for further discussion.
Delegate Assembly Minutes Approval Procedure

1. At each Delegate Assembly, a Minutes Review Committee of five voting members shall be recommended by the President and approved by motion of the Delegate Assembly. The committee chair shall be a continuing Regional Vice President, or if none, another continuing officer other than the President and the other members shall include a state delegate, an affiliate delegate, an affiliate president and an AMATYC Past-President. The committee will meet briefly at the close of the Delegate Assembly.

2. The AMATYC Secretary shall supply a draft copy of the minutes to the committee within 14 days after the Delegate Assembly. The chair should have an electronic document version for editing.

3. The committee chair shall receive suggestions from the committee, collate and synthesize the suggestions and forward suggestions to the Secretary. The chair should use a review process that ensures that a majority of the committee members are satisfied with the proposed changes.

4. The committee chair will conduct an email ballot to approve the minutes. A majority of the committee must approve the minutes. These approved minutes will be sent to the AMATYC Secretary within 60 days of the Delegate Assembly.

5. A copy of the approved minutes will be included in the delegate packet.

6. At the following Delegate Assembly the committee chair will report that the minutes were reviewed, corrected, and approved by the Minutes Review Committee.

At each Delegate Assembly, a motion of the Delegate Assembly shall appoint a Minutes Review Committee of five voting members.

ATTACHMENT A

1 American Mathematical Association of Two-Year Colleges
2 Position Paper on Time Limits for Course Prerequisites

Mathematics knowledge can decline when not used. Therefore, continuing students should be encouraged to take a mathematics course each term until their math requirements are completed. Institutions should establish policies and procedures that encourage incoming students to make informed choices concerning initial mathematics course enrollment and a plan for completion of mathematics course sequences. Time limits for course prerequisites should include both mathematics and statistics courses. Among these policies and procedures are those dealing with time limits for a variety of course prerequisites (e.g. placement tests, college entrance tests, CLEP, AP, IB, course credits from other institutions, college readiness exams, and others). The primary goal of these policies and procedures is the students’ successful and prompt completion of their mathematics and statistics requirements.

AMATYC recommends that each institution determine time limits for placement tests and prerequisite courses based upon their own mission and goals, unless otherwise mandated through a governing state. After establishing a process for initial placement into a mathematics course, the institution should develop systems to determine reasonable time periods for acceptance of prerequisites and placement test scores.

Policies and procedures established by institutions should be systematic and all-inclusive by specifying a time limit for all means of satisfying a prerequisite, including (if necessary) time limits on how long each of the following prerequisites is valid:
1. A math placement level determined by placement testing;
2. The successful completion of awarded credit (e.g., through CLEP or AP test score);
3. The successful completion of a prerequisite course;
4. An appropriate ACT or SAT score.

In establishing a prerequisite time limit policy, consideration should be given to these things:
1. The Historical data of performance in mathematics courses;
2. The appropriateness of a specific time limit, especially for courses in a mathematics sequence;
3. The challenges and implications for the college and students of implementing a specific time limit;
4. The possibility of an appropriate appeal process or waiver for students with special circumstances;
5. A plan to communicate and prepare for the effective implementation of the time limit policy.

Colleges should recognize that it will take a significant amount of time to develop meaningful and valid recommendations concerning time limits. The group making these recommendations should include faculty, academic advisors or counselors, and administrators. Appropriate Institutional support for the collection and interpretation of data is important for success. Colleges might also seek input from other colleges that have implemented time limits. Once a recommendation is made and implemented, the data should be revisited periodically to assess effectiveness.

TO: 2016 AMATYC Delegate Assembly  
FROM: Jane D. Tanner, AMATYC President

This has been an incredibly busy year as AMATYC President and I appreciate the support that the AMATYC board has given me. In addition, the AMATYC Office, Executive Director Wanda Garner, and Conference Coordinator Keven Dockter have all worked extremely hard with me to carry out AMATYC's mission to provide high quality professional development, to advocate and collaborate at all levels, and to build communities of learners for all involved in mathematics education in the first two years of college.

Activities
Throughout the past year, AMATYC has been involved in many different activities that support our vision of being the leading voice and resource for excellence in mathematics education in the first two years of college. Some of these activities include:

- Immediate Past President Nancy Sattler and Mary Beth Orrange have been leading a steering committee and teams of writers as our Crossroads documents are updated.
- President-Elect Jim Ham led the board in brainstorming a new mission statement, vision, and strategic plan for 2018-2023.
- AMATYC's Professional Development Committee awarded eight Traveling Workshop grants to institutional members and affiliates.

Travel
AMATYC also participates in a number of presidential exchanges, meaning that the presidents are able to speak at each other's conferences. As part of this exchange, I have had the opportunity to go out on the road, attend meetings, and give presentations for six organizations.

- Association of Mathematics Teacher Educators (AMTE) in Irvine, CA
- National Association for Developmental Education (NADE) and the Second National Summit on Developmental Mathematics in Anaheim, CA
- National Council of Supervisors of Mathematics (NCSM) in Oakland, CA
- National Council of Teachers of Mathematics (NCTM) in San Francisco, CA
- TODOS: Mathematics for ALL in Scottsdale, AZ
- Mathematical Association of America's Joint Mathematics Meetings in Seattle, WA and MathFest in Columbus, OH

In addition, I attended the 13th International Congress on Mathematical Education (ICME) in Hamburg, Germany. Gregory D. Foley organized a Discussion Group on Transition From Secondary to Tertiary Education and together we presented Issues in the Transition from Secondary to Tertiary Mathematics Education: North American Perspectives.

Collaboration with Other Organizations
In my role as AMATYC president, I have been asked to attend other meetings to act as a voice for those interested in mathematics taught in the first two years of college. These organizations include:

- Conference Board of the Mathematical Sciences (CBMS)
- Transforming Post-Secondary Education in Mathematics (TPSE Math)
- Carnegie Foundation for the Advancement of Teaching
- The National Academies of Sciences, Engineering, and Medicine
- Joint Committee on Women in the Mathematical Sciences (JCW)

2022 Conference Site Selection
Jim Ham has submitted the Site Selection Committee's report as part of this Delegate Assembly packet.

The charge of the AMATYC Foundation is to raise and disperse funds to support the mission of AMATYC. The Foundation is composed of the following members: Rachel Black, Wanda Garner, Mark Harbison, Pat McKeague, Fred Peskoff, Nancy Sattler (Chair), Bill Steenken, Jane Tanner, and David Tannor.

The Foundation designated $1,375 to support four AMATYC members ($375 each) attending the 13th International Congress on Mathematical Education (ICME). ICME is held every four years and this is the second time that that Foundation has offered awards to attendees. During the AMATYC Spring Board Meeting in Memphis, the winners were selected by random draw from the 15 members who applied. The winners are: Steve Blasberg, Patrick Kimani, Victor Odafe, and Laura Watkins. Each recipient was asked to write a short summary of what they gained by attending the conference.

The Leila and Simon Peskoff Award, made possible through a contribution to the AMATYC Foundation by Fred Peskoff, in memory of his parents, is given annually to an AMATYC Project ACCCESS fellow who has contributed to the education profession in the area of the mathematics taught during the first two years of college. The award consists of a lifetime membership in the American Mathematical Association of Two-Year Colleges (AMATYC). The Peskoff Award is given to an individual who has:

- Successfully completed the two-year Project ACCCESS program.
- Demonstrated familiarity with the scholarship of teaching.
- Participated actively in professional communities.
- Demonstrated a commitment to continued growth in mathematics.
- Maintained membership in AMATYC for at least one of the past three years.

At the AMATYC Denver conference, the first Leila and Simon Peskoff Award will be presented to Michael Pemberton of Maysville Community & Technical College (MCTC). Pemberton was a member of Cohort 9 for Project Access. Nominations for next year’s award is due May 1, 2017. See [http://www.amatyc.org/?page=PeskoffAward](http://www.amatyc.org/?page=PeskoffAward) for further information.

The Foundation Board has renovated the grant procedure for our members to apply for a mini-grant from the Foundation. See [http://www.amatyc.org/?page=Grants](http://www.amatyc.org/?page=Grants) for further information. The Foundation Board continues to fund AMATYC Project ACCCESS at the rate of $15,000 per year and the Presidential Student Scholarship for $1000.

The theme for this year’s Foundation’s fund raising is “Remember the Past – Invest in the Future”. Conference attendees in Denver will be encouraged to make donations in memory of Sister Mary Clarice Sparkman, Kate Danforth and/or Margie Hobbs. All three of these AMATYC leaders passed away in 2016. Over the years, Margie served as AMATYC program
chair, conference chair, regional vice president, treasurer, conference coordinator, and again as treasurer in 2014-2015. She, along with Cheryl Cleaves, was instrumental in getting our national office at Southwest Tennessee CC and was an active writer on our standards documents. Kate served as AMATYC Editing Director and was a member of the Teaching Excellence Committee. She received the TE Award in 2009 and was a past president of NYSMATYC. Sister Clarice Sparkman attended the first organization meeting for AMATYC and served as AMATYC’s first Treasurer. She served on the committee that created the original AMATYC Constitution. Sister Clarice served as the second president of AMATYC and was very active at San Jose Community College in Developmental Mathematics. Consider honoring Margie, Kate and Sister Clarice by contributing to the AMATYC Foundation and investing in the future of AMATYC.

The dot campaign and the regional competition will be continued in Denver. Attendees will be invited to donate a dollar for each AMATYC conference attended. As in the past few years, there will be a competition among AMATYC regions. Two lucky donors from each region will be selected at the Friday regional breakfasts. The winner from the region with the highest percentage of donation participation will receive a one-year AMATYC membership. The winner from the region with the higher dollar amount in donations will receive a two-year AMATYC membership. A complimentary discount member registration to the 2017 AMATYC Conference in San Diego or a three year AMATYC membership will be awarded to an attendee drawn from all donors to the Foundation.
AMATYC is committed to the professional development of its members. The AMATYC Executive Board has allocated funds for a project to examine the standards previously set forth. The Steering Committee for the Beyond Crossroads Revision (BCR) project is working on revising and updating AMATYC’s signature standards documents, Crossroads in Mathematics and Beyond Crossroads.

The Steering Committee meets monthly through the use of technology. The steering committee is comprised of the chapter leaders, the technology leaders, the research leaders, and the project co-chairs. Members of the Steering Committee are Judy Ackerman, Rikki Blair, Ted Cole, Evan Evans, Rob Farinelli, Greg Foley, Karen Gaines, Dave Graser, Rob Kimball, Kate Kozak, Victor Odafe, Mary Beth Orrange (co-chair), Julie Phelps, Nancy Sattler (co-chair), John Smith, April Strom, David Tannor (editor), and Susan Wood.

An Advisory Board has been formed that includes leadership from national organizations including: MAA, NCTM, ASA, SIAM, the Dana Center, Carnegie Foundation, and AMS. They are consulted periodically for input as the project progresses.

The timeline for the project has been established. There will be a Thursday night forum in Denver to discuss the work in progress and a session led by Mary Beth Orrange, co-chair on Friday. This session will allow members to give further input on the document.

Based on data collected in Denver and the research of the Steering Committee and writing teams, the draft document will be written and refined over the next several months. In July of 2017, the AMATYC Executive Board will be asked to approve the document and at the AMATYC San Diego Conference in November 2017, there will be a final hearing for the document. The final draft product will be voted on at the Delegate Assembly in San Diego. In January, 2018, the final product will be produced.

Grant opportunities are being explored for the dissemination of the final product to AMATYC members.
The Board continues to implement the 2012-2017 AMATYC Strategic Plan. Under each priority and initiative of the strategic plan, there is a listing of action items related to the initiative that have been completed, are ongoing, or have been proposed over the past two years. The Board continues to spend significant time at each board meeting on strategic planning. Since many different AMATYC members and leaders contribute to this living document on many different occasions, and since some action items are related to multiple initiatives, there are redundancies.

This diverse group of 24 faculty are attending the first of their two consecutive AMATYC national meetings here in Denver where they are participating in specially selected sessions and workshops, as well as attending regular conference activities. Through the many ACCCESS activities, these Fellows will gain knowledge of the culture and mission of the two-year college and its students, and acquire familiarity with the scholarship of teaching. They will also be attending local/regional MAA, AMATYC, and/or NCTM conferences over the next year. This year we have several Fellows from Cohorts 1 – 11 assisting with Project ACCCESS.

The selection process for Project ACCCESS Fellows is competitive and we received far more applications than available positions. If you happen to have a colleague who submitted an application for Cohort 13 but was not selected please encourage them to apply next year to be part of Cohort 14 if they are still eligible at that time.
