Corning Community College is accepting applications for the position of Instructor/Assistant Professor of Developmental Mathematics to teach developmental math, starting Fall 2018. This tenure-track position will be responsible for delivering developmental math courses and advising students. And as a member of our faculty, the selected candidate will collaborate with colleagues in redesigning and shaping math instruction for our future leaders and workforce. Other responsibilities include course/curriculum development, student advisement, course assessment, program review, and college committee participation.

### Minimum Qualifications:

- Master's degree in math with three years of teaching at a community college preferred (degrees in math education or bachelors in math with Master's degree in education will be considered)
- Passion for innovative teaching practices and technologies
- Demonstrated commitment to creating learning-centered environments that address diverse needs and student mentorship
- Demonstrated commitment to academic citizenship, professional development, and community engagement
- Knowledge and experience in developmental math teaching principles
- Experience with using data and research-based instructional and curricular assessments and practices

To apply, please submit a cover letter, resume, academic transcripts of all colleges attended, and the names/ telephone numbers of three professional references. Completed applications will only be considered. The position is open until filled with preference given to applications received by May 4, 2018.

## **Facts about Corning Community College:**

Corning Community College (CCC) transforms lives. We offer over 40 programs ranging from traditional liberal arts to new emerging technologies. As a member of the SUNY (State University of New York) system, graduating students find success in transferring to 4-year programs as well as entering the workforce in a variety of fields. We have a unique strength in the STEM field as the only community college in the U.S. with an observatory, planetarium, and nature center. In 2016, BestCollege.com recognized CCC with first-place ranking on their list of two-year schools. As a STEM leader among community colleges and workforce education providers, we are also uniquely positioned for success with our business and community collaborations.

CCC is widely known for its commitment to excellence in teaching and student development. We seek qualified candidates who can help us advance our goals of creating and sustaining a campus culture that welcomes and provides support to individuals of all groups and encourages understanding and mutual respect of diverse individuals. Minority candidates are encouraged to apply.

CCC values diversity and inclusion as an institutional foundation to our collaborative learning and working environment.
