## A Labor Relations Tool

### RECENTLY UPDATED

Pyramid Power<sup>®</sup> is a premier union avoidance tool designed to give managers and supervisors the knowledge they need to operate in today's labor management environment. Employers cannot afford to delay preparing their management for potential union activity and understanding the legal guidelines established by the National Labor Relations Act. Pyramid Power<sup>®</sup> teaches basic labor law, the six key stages of a union campaign, and typical unfair labor practices.

*Pyramid Power<sup>®</sup> is an interactive game developed by experts with the flexibility to be used with large groups of 100 or small groups of 6. It is a board game based on the six stages of a union campaign integrating labor law with real world examples and can be played by 4 to 5 players at a time. Participants can test their knowledge by answering questions which allows them to win points which is then followed by a participant driven question and answer session. It can be used multiple times with the same audience since it allows for a broad range of information to be covered.*

*This product available from CUE, Inc. Place your order today -*

*Pyramid Power® is a tested product that is unique to the labor relations market. CUE members and non-members would benefit from having access to the game as an in-house training tool.*
