Quick Scan of European Ecosystems for eHealth Solutions & Services

• While a number of regional clusters, networks and ecosystems already exist in the country concerned, the ministry wanted to identify how they can support them to be more successful in scaling up solutions and initiatives, learn from good practice in other regional ecosystems across Europe, as well as create export opportunities for SMEs.

Study of Third Party Integration with Public Health Systems

• The Study explored international examples of third party integration with public health information systems. ECHAlliance used its international network to identify and engage with six regions with lessons for Estonia in terms of integrating third parties with public health information systems.

Strategic partner for the Estonian Government’s presidency and eHealth Conference, October 2017

• ECHAlliance is currently working closely with the Estonian Government as their Strategic Partner for the presidency and also in the organisation of the Digital Health Society Conference in October 2017. This includes development of the programme, organisation of speakers and agenda as well as preparation of the sponsorship packages.
