

Microsoft

SharePoint

GMIS, in partnership with Microsoft, is pleased to present a webinar on SharePoint 2013. This will be a technical discussion not a sales presentation. Microsoft will have experts on hand to discuss on the architecture, (hosted vs. on-premise), as well as best practices for deployment, and configuration.

Join us

July 10th, 2013

1 PM Eastern

Noon Central

11 AM Mountain

10 AM Pacific
