The Home Care Association of Florida Presents...

The Trials &
Tribulations of
HOME HEALTH
DOCUMENTATION

Webinar: September 15, 2015
3:00pm-4:30pm EST

Have you noticed recently the emphasis on Home Health documentation either in ADRs or MAC communications? It's an old health care saying - but it still rings true – “If it's not documented, it's not done!” Some would also add, “If it's documented, but not legible or signed appropriately, it's not done!”

This 90 minute webinar will focus on:
1. Brief overview of who is looking at your documentation and its need to support your claims and indicate COP compliance
2. Getting & documenting the clinical info you need at the point of referral to assist ICD-10 coding
3. Documenting Homebound status
4. Documenting medical necessity by focusing on 5 major Home Health coverage areas: wounds; injections; teaching; diabetes; and observation and assessment
5. POC Documentation needs including diagnosis decision making; what medications to include; and, POC statements re: daily skilled nursing; anticipated length of stay in home health; management & evaluation narrative; and, therapy goals.
6. Verbal order documentation
7. Signature requirements
8. and How to make documentation corrections per CMS requirements
