## Testimonials for Lorna Waggoner

"I'm the President of a small Healthcare IT consulting firm, and I am the second of our staff to attend an efirst HIPAA training course. In my opinion the course was well organized, well presented, and a wealth of information was provided for all of the students to learn. The instructor, Lorna Waggoner, was passionate about the topic, and was able to bring the material to life with her many personal anecdotes and experience. The materials provided were well written, accurate, and easy to read, which helped translate dry Federal Law into usable material. The venue was perfect for the course, easy to get to, had free WiFi, and excellent lunch food was provided. I would recommend this course and efirst to anyone seeking to gain more knowledge and expertise about HIPAA legislation. It was a very pleasant experience."

***Evan Corstorphine -The Portable CIO***

"The training on HIPAA was excellent! Lorna Waggoner was very knowledgeable and thorough in addressing all of the concerns in the class. The information was organized so that the training flowed and transitioned from one topic to the next seamlessly. I would recommend this course for anyone and everyone working in a Covered Entity or as a Business Associate."

***Dave Foor-Microsoft***

"I thought the class was very informative and the instructor was excellent. Both knowledgeable and engaging."

***Sue Wong - Kaiser Permanente***

"The small class size was good for open discussion and Lorna was very inviting of questions and clarification."

***Russ McGuire - Cerner Corporation***

"Lorna is an awesome trainer and her depth of knowledge provides practical solutions to difficult requirements."

***Nita Bowers - The Training Place***

"Instructor is very knowledgeable. Kept the class interesting, provided scenarios to better explain topics and materials. Great course!"

***Cecilia Lorenzo - Clini Sanitas***

"Lorna Waggoner's breadth of knowledge is truly impressive. She shined the light in the darkness to bring understanding!"
