

It pays to choose

Peer Reviewed ARL Evidence

#1 in Accuracy*

Superior accuracy provides multiple benefits:

- ↑ Enhanced patient compliance and satisfaction
- ↑ More on-time refills
- ↑ Increased pharmacy revenue

Follow us on:

Find out how the topical dosing dispensers YOU use performed.

The proven accuracy of Topi-CLICK® will promote on-time refills and improve patient compliance. MIT published an analysis stating “a 25% increase in medication compliance would increase a community drugstore’s annual revenues by \$1.7 M and annual gross profits by over \$400,000.”¹

Topi-CLICK®, the most accurate topical dosing dispenser among those tested in an independent study by Analytical Research Laboratories*, provides a consistent dose from start to finish and pharmacies can expect healthier profits from on-time refills.

The combination of Topi-CLICK’s easy metering system for topical medications with an integrated applicator pad assures 100% of the medication is applied to the prescribed area. The built-in applicator pad eliminates the non-compliant procedure of rubbing topical medications onto treatment areas with hands which may waste some of the topical medication when washed off or lead to cross-contamination of unintended areas.

Visit <http://www.doselogix.com> to learn more about products that are designed specifically for each patient’s topical dosing needs including the revolutionary Peri™ Vaginal Dosing Kit, the Topi-CLICK® 35, and the larger volume Topi-CLICK® 140.
