Keynote Speaker

Dr. Hale is Professor of Pediatrics and Assistant Dean of Research at Texas Tech University School of Medicine. He holds degrees in Pharmacy and a Ph.D. in Pharmacology and Toxicology and is widely experienced in Pediatric and Breastfeeding Clinical Pharmacology. He is a well-known international lecturer in the pharmacology of lactation and is the author of five books including: Medications and Mothers' Milk, the top-selling drug reference manual in the world. His other books include Textbook of Human Lactation; Clinical Therapy in Breastfeeding Women; and Drug Therapy and Breastfeeding. He is considered by many to be one of the world's leading authorities in the use of medications in breastfeeding women.
