

**1993 ITAA Fellow – Sandra Hutton**

Sandra has published numerous journal articles, and her *Clothing and Textiles Arts Index* has been an invaluable source of support for research and teaching in this field. A weaver and fiber artist, she has served as juror and is also known for development of theory explaining fashion. She is a faculty affiliate at Colorado State University in Fort Collins. As Executive Director of ITAA, Sandy was instrumental in helping ITAA emerge from its restructuring as a strong and increasingly respected organization.

Most recently she was chairperson of “Complexity”, the international exhibit of complex weaving sponsored by Complex Weavers.
