

Growing the IT Service Management Profession Globally

itSMF International and AXELOS Global Best Practice have entered into a global partnership to help shape the future of Service Management. By combining the practical experience of itSMF members and AXELOS' expertise in the development and adoption of best practice, this partnership can help demonstrate the value of IT services to organizations and raise the profile of the IT service management profession globally.

Key benefits of the ITSMF and AXELOS partnership include:

- Networking with new people who are taking certifications and inviting them to join itSMF and share best practices
- Developing emerging practices and innovations amongst subject matter experts and IT Managers
- Co-hosting corporate forums for senior leaders to exchange views and ideas on industry direction, AXELOS strategy, product roadmaps and case studies
- Helping to embed a culture of professionalism across the global community through awareness of the AXELOS Professional Development Programme
- Conducting an annual joint global ITSM survey to identify industry trends
- Co-developing and sharing white papers and other IP creation around the world.

The first program to be rolled out in the joint itSMF - AXELOS agreement is the Professional Development Program.

To find out more about how itSMF members and chapters can get involved in this exciting new partnership visit <http://www.itsmfi.org/>

AXELOS Professional Development Program
