- E. I would meet with my legislator one-on-one (36 out of 101)
- F. I would write a Letter to the Editor about an issue of importance to psychology (28 out of 101)

- G. I would attend a political fundraiser (36 out of 101)
- H. I would donate money to a KPA PAC that represents psychologists' interests (56 out of 101)
- I. Other, please describe (2 out of 101)

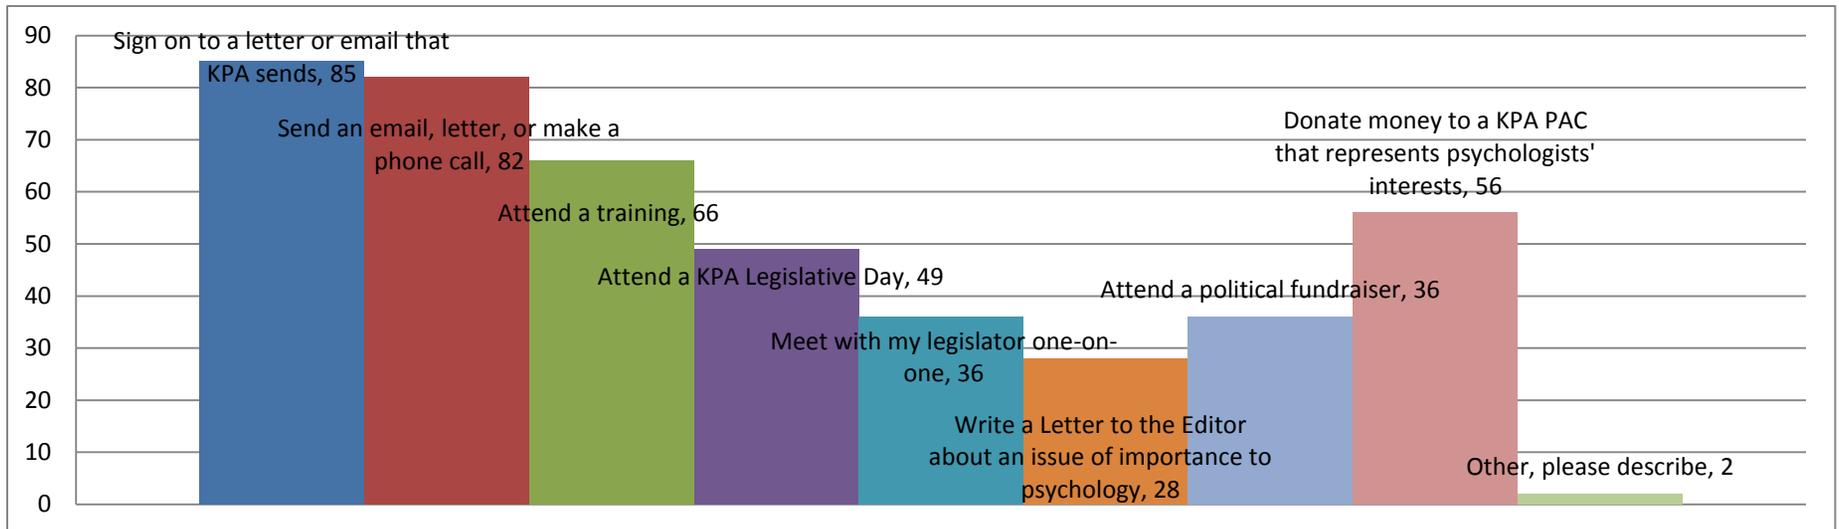

**If you selected Other, please describe:**

Would especially make a phone call if I have a script as to what to say (at least until I know the problem better).

Contribution amount will depend on KPA's stance on important issues.

Likely, none

## 2014 PAC Survey

### Please feel free to write any comments or questions here:

- Let's do it!!!
- I would contribute \$10.00
- Go Sheila!!!
- Would be interested in knowing the average giving in all the professions that rank higher than psychologists. Having that context would help me determine how much I may need to allocate & adjust my budget if more is needed.
- Not interested in contributing.
- I don't like the idea of a group deity who I support that I may not be in agreement with.
- I strongly support starting a PAC. Think 10 seeding donors at \$1000 each should be found and then challenge membership to match this \$10,000. I would be willing to be one of the initial donors. I have discussed this with Sheila.
- I would maybe attend a training about advocacy.
- Thanks for doing this - Psychology is behind in this area; we need to have a strong voice.
- Support would be dependent on platforms put forth for lobby agenda at state & federal level; evidence of transparency of platforms/expenditures,
- I would attend legislative day or fundraiser if possible.
- Clone Sheila!
- Unsure of contribution until I have more facts.
- Very interested as psychology needs to lead the way in acceptance, tolerance and health issues.
- Retired, not really interested in political activity.
- Please designate specific funding outside normal dues for political action/asking
