INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
of Leadership Oklahoma, Inc.

We have audited the accompanying financial statements of Leadership Oklahoma, Inc., (a not-for-profit corporation operating as Leadership Oklahoma), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of activities and cash flows for the years then ended, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Leadership Oklahoma, Inc. as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

June 30, 2017

Note 1. Organization

Leadership Oklahoma, Inc. ("Leadership") was organized in 1987 to develop, educate and nurture a statewide network of proactive leaders for Oklahoma. Leadership provides an annual series of proactive, issues-oriented educational forums. Also, the Organization provides for various membership events and services. The Organization operates under the name "Leadership Oklahoma", and is supported primarily through member and donor contributions, grants, tuition, and other revenues.

Leadership is a not-for-profit organization that is exempt from income taxes under Internal Revenue Code Section 501(c)(3) and classified by the Internal Revenue Service as other than a private foundation. As a result, no provision for current or deferred income tax liability is recognized. Accounting standards require disclosures regarding any uncertain income tax positions. Leadership evaluates any uncertain tax positions using the provisions of Financial Accounting Standards Board (ASC) 450, *Contingencies*. The Organization does not believe that it has engaged in any activity that would result in an uncertain tax position. As a result, management does not believe that any uncertain tax positions currently exist and no loss contingency has been recognized in the accompanying financial statements.

Note 2. Summary of Significant Accounting Policies

The financial statements of Leadership have been prepared on the accrual basis of accounting. The significant accounting policies followed are described below:

Cash

Leadership considers both demand deposits and time deposits maturing in three months or less as cash. Currently, there are no time deposits maturing in three months or less.

Investments

Investments in mutual funds and stocks with readily determinable fair values and all investments in debt are stated at fair value, based on quoted market prices, with unrealized gains and losses reported in the statement of activities for the year. The recorded amount of donated investment instruments is reflected at the estimated market value at the date of donation.

Note 2. Summary of Significant Accounting Policies, continued

Equipment

Equipment is recorded at purchased cost or at fair market value, if contributed, and depreciated over the estimated useful life of the assets. Maintenance and repairs are expensed as incurred. Depreciation of equipment is on the straight-line method over five to seven years. Depreciable assets sold, retired or otherwise disposed of are removed from the asset and accumulated depreciation accounts and any gains or losses thereon are reflected in earnings. A formal capitalization policy has not been adopted, but significant additions are capitalized on a case-by-case basis for those assets which have an expected life beyond one year.

Website Development Costs

Website development costs are capitalized and amortized over a five year period using the straight line method.

Net Asset Classifications

Net assets have been segregated to reflect the fair presentation of those resources available for use at the discretion of the board of directors and of those resources over which the board has little, if any, discretion as to use due to externally imposed restrictions. The following net asset classification has been established for Leadership.

Unrestricted net assets – Represents resources over which the board has discretionary control to use in the operations of Leadership. Unrestricted net assets include board designated endowments or quasi-endowments.

Temporarily restricted net assets – Represents resources which are received with donor stipulations or have been designated by contributors for use in future years.

Contributions

Leadership reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. Contributions are recorded when cash or other assets are received, or when an unconditional promise to give is made. Restricted support that has been received and expended during the year is reported as unrestricted support and unrestricted net assets.

LEADERSHIP OKLAHOMA, INC.

Notes to Financial Statements

June 30, 2017

Note 2. Summary of Significant Accounting Policies, continued

Leadership reports gifts of land, buildings, and equipment as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with specific restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, Leadership reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Concentration of Credit Risk

Financial instruments, which potentially subject Leadership to credit risk, consist of cash, promises to give and investments. Leadership maintains its cash balances in high quality financial institutions. Leadership also maintains a bank "sweep" account, which is invested in US Treasury and Agency obligations. This account is not Federally insured. Management believes any possible credit risk is minimal.

Leadership has a board-designated endowment account, administered by a trust company, which consists of corporate bonds, common stocks, mutual funds, and cash equivalents. The trust company administers the portfolio in accordance with the Leadership investment policy. The policy indicates the type of investments permitted and the composition of the portfolio. The investment return available for current year expenditures is determined in accordance with the policy. The policy provides for the transfer of funds to operations annually at the discretion of the Board of Directors. Additionally, the Isaiah Stone Memorial Fund assets were invested in mutual funds administered by the trust company. The memorial fund was donated to the Isaiah Stone Foundation in 2017. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the investment account balances and the amounts reported in the statements of financial position and the statements of activities.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Leadership to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 5. Fair Value Measurements, continued

The fair value accounting literature established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. The fair value of the mutual funds and common stocks are determined by reference to quoted market prices and other relevant information generated by market transactions and are reported under Level 1 inputs. Level 2 inputs consist of observable inputs other than quoted prices for identical assets. Corporate bond pricing is obtained from the trust company which uses third party sources and is reported under Level 2 inputs. Level 3 inputs have the lowest priority. There are no investments classified as Level 3.
