

NAEM WORKSHOP: MANAGING GLOBAL EHS PROGRAMS

Workshop Overview

At this workshop, you will join fellow EHS managers to benchmark best practices and address the challenges of managing EHS across the globe. Learn strategies from leading companies who have deployed mature EHS management systems to meet a complex array of global EHS challenges, including regulatory compliance, auditing and supply chain management.

NAEM, established in 1991, is the premier association for EHS Management. As a non-profit, non-partisan educational association, NAEM is dedicated to advancing the knowledge and practice of Environmental, Health & Safety (EHS) management.

Upcoming **NAEM Events** include:

The 16th Annual EHS Management Forum

October 22-24th, 2008
Memphis, TN

Creative Workplace Management Webinar

AUGUST 6, 2008

7:45am-8:30am **Breakfast**

8:30am-9:00am **Welcome & Introduction**

- > **Gary Ballesteros**, Vice President of Law, Rockwell Automation
- > **Virginia Hoekenga**, Deputy Director, NAEM

9:00am-10:30am **Exploring Global Regulatory Trends**

Moderator: Ray Lizotte, Product Environmental Compliance Engineer, Schneider Electric

With a complex array of regulations coming on line in different regions and countries across the globe, this opening session will look at key global regulatory trends influencing companies worldwide.

- > **Mary Burgoon**, Program Manager, Global Standards & Trade, Rockwell Automation
- > **Bruce Calder**, Director of Restricted Substances, Intertek

10:30am-11:00am **Break**

11:00am-12:30pm **Product Compliance Regulations: Ensuring RoHS and REACH Compliance**

This case study session will focus on how companies can ensure systematic verification and documentation for RoHS and REACH compliance throughout a product's life cycle, including the design, materials sourcing, manufacturing and testing and customer communications.

- > **Ray Lizotte**, Product Environmental Compliance Engineer, Schneider Electric
- > **Stuart Sleeman**, Material Content Manager, ESH Department, Sensata Technologies

12:30pm-1:30pm **Lunch Sponsored by**

1:30pm-3:00pm **Global Auditing Best Practices**

Moderator: John Nagy, Corporate Program Manager, ENSR-AECOM

EHS auditing remains the foundation for an effective global EHS management program. This session will examine the critical elements of an EHS auditing program, the foundation of an effective Global EHS management program, with specific attention to overcoming common global auditing challenges and best practices in data gathering, management and presentation to senior management.

- > **Lori Kaczynski**, Vice President, Compliance and Ethics, Georgia-Pacific
- > **Alan Roy**, Director of Compliance Assurance and Measurements, Tyco International

3:00pm-3:30pm **Break Sponsored by** ENSR | AECOM

NAEM WORKSHOP: MANAGING GLOBAL EHS PROGRAMS

3:30pm-5:00pm **Managing EHS Across Global Supply Chains**
Moderator: Dana Marks, Senior Consultant, Kestrel Management Services

As companies are increasingly held responsible for the business practices of suppliers, many organizations are still struggling with how to engage their suppliers in a constructive way. This session will examine how leading companies are setting up supplier auditing programs and working with suppliers to improve EHS practices, as well as innovative ways to reduce the environmental footprints of their products through supply chain management.

- > **Mike Vaudreuil**, Global EHS Assurance, HP
- > **Phil Berry**, President, Sustainable Product Works

5:00pm-5:15pm **Closing Remarks**

5:15pm-6:15pm **Networking Reception Sponsored by **
Rockwell and NAEM invite you to continue your discussions from the day while enjoying a view of the Milwaukee skyline from inside the historic Rockwell clock tower. The clock tower is the world's largest four-faced clock, with faces nearly twice as large as those of Big Ben.

Rockwell Automation

ROCKWELL AUTOMATION is a leading global provider of industrial automation power, control and information solutions. The company helps customers across a wide range of end markets achieve a competitive advantage in their businesses through leading technologies and a comprehensive portfolio of products, software and services.
