

DVD Descriptions

First-Aid Firefighting With Handheld Portable Fire Extinguishers (DVD)

This is the most popular and best-selling extinguisher DVD NAFED has ever sold! It covers all of the various handheld portable fire extinguisher characteristics and essential use fundamentals necessary for proper application. The DVD:

- addresses the technical training objectives necessary for compliance with the OSHA employee fire extinguisher training requirements identified within CFR-29, part 1910.157
 - addresses ALL FIVE classifications of fires, including the newest NFPA class K fire extinguisher rating
 - explains and demonstrates handheld portable fire extinguishers being properly used on over forty different live fire situations
 - explains and demonstrates the proper discharge and application techniques associated with properly applying each type of extinguishing agent
 - explains and demonstrates the proper operating characteristics associated with the many types of handheld portable fire extinguisher hardware
-

Portable Extinguisher Care (DVD)

This DVD is intended for your customers' viewing or can be shown to insurance companies, fire departments, and local AHJs for training. It:

- demonstrates different types of extinguishers and the services required by each
 - teaches how improper servicing can affect operation of extinguishers
 - shows how your company's quality service is required to ensure that the extinguisher will work when needed
-

Understanding UL 300 Fire Extinguishing Systems (DVD)

This 20-minute video is a comprehensive evaluation that demonstrates for technicians the distinction between two very similar standards: UL 300 and UL 1254. It covers the history of pre-engineered systems and explains the basic change initiated by UL 300 (UL 1254). This video also outlines the necessity of UL 300 (UL 1254) in conjunction with the hazards of modern commercial cooking technology.

Servicing Wheeled Fire Extinguishers (DVD)

Designed to assist NAFED members, this 25-minute video provides an informative overview of the requirements and procedures necessary to properly service wheeled fire extinguishers. Hardware generic in nature, the viewer can learn the proper servicing techniques for different styles and brands of wheeled fire extinguishers. This video will complement your in-house technician training program.

Extinguisher Placement (DVD)

This exciting 22-minute video covers important topics such as occupancy classifications; environmental considerations; hardware limitations; extinguisher mounting and hardware; classes of fires; extinguisher placement heights; cabinet usage; signs and placards; ADA; travel distances; special needs; and much more.

All DVDs may be customized by having your company's name and contact information added at the beginning of the presentation for an extra fee.
