

Todd Hayes

Todd Hayes is the region vice president for United Rentals Trench Safety. As the RVP, Todd oversees the sales and operations of 74 locations across North America that provide services in 48 US states, ten Canadian providences, and employs over 750 team members. His region office is located in Omaha, Nebraska. Todd has been involved in the shoring business since 1996, initially through his work with Shoring & Supply, and now with United Rentals who acquired the company in 1999. From 1996 to 2002, Todd worked for two trench safety companies where he held positions in sales and management. He joined United Rentals for the second time in his career when NES Trench Shoring sold its operations to United Rentals in 2002.

United Rentals, Inc. (NYSE: URI) provides the world's largest fleet of rental equipment to industrial operations and commercial construction companies, as well as public and private works. With branch locations throughout North America, we offer our customers true 24/7 service and support, including a dedicated customer care team and on-site maintenance and repair day or night, to keep rental equipment and plants/jobsites up and running.

Trench Safety experts deliver underground construction safety equipment and excavation solutions. The Power & HVAC team provides temporary power, climate control, disaster recovery and related equipment and services. United Rentals Pump Solutions provides industrial-grade equipment for fluid transfer, flow control, bypass and groundwater management applications. And our Tool Solutions range from a single tool to a completely customized mobile tool room and tracking system.

Trench safety and trench shoring solutions including:

- Excavation Safety, Confined Space, OSHA 10 and OSHA 30 training courses
- In House Engineered Systems
- Sheeting and Bracing
- Steel Shields
- Slide Rail Systems
- Hydraulic Trench Shoring
- Modular Trench Shoring
- Steel Crossing Plates
- Bedding Containers
