ABOUT THE EXAMINATION

The Certified Professional in Patient Safety (CPPS) credential distinguishes health care professionals who meet the competency requirements in the areas of patient safety science and human factors engineering, and who demonstrate the ability to apply this knowledge to effectively plan and implement patient safety initiatives. Candidates may include patient safety professionals, clinicians, non-clinical health care workers, executives, and other professionals with the requisite background.

The certification exam is a rigorous and comprehensive credentialing process consisting of 110 questions, 100 of which are scored. The other 10 are pretest questions. You will be asked to answer these questions, but they will not be factored into your scored examination result. These pretest questions are dispersed within the examination and are not marked in any way. This ensures candidates answer pretest questions in the same manner as scored questions, allowing the pretest questions to be validated as accurate and appropriate before being included as a measure of candidate competency.

There are three types of questions on the exam:

- Recall: The ability to recall or recognize specific information
- Application: The ability to comprehend, relate or apply knowledge to new or changing situations
- Analysis: The ability to analyze and synthesize information, determine solutions and/or evaluate the usefulness of a solution

Only a small percentage of the exam questions are categorized as recall. The rest are divided between application and analysis.

The examination is available in a computerized format on a daily basis at AMP Assessment Centers across the United States and internationally.

PREPARING FOR THE EXAMINATION

The method of preparation and amount of time spent preparing for the examination can be driven by the candidate’s study preferences, level of professional and relevant experience, or academic background. Some methods of preparation may include, but are not limited to:

Review of the Content Outline and Resource List

Review the content categories and related tasks. Identify and focus review on tasks that you do not perform regularly or with which you are less familiar.

Review the resource list curated by The Expert Oversight Committee and other subject matter experts. Identify and focus review on resources that cover content areas with which you are less familiar.

Remember that most questions in the CPPS Examination are job-related/experience-based and test the application and analysis of information rather than just the recall of facts.

Both the CPPS Examination Content Outline and Resource List can be found at www.cbpps.org.

Complete the Self-Assessment Examination (SAE)

A Self-Assessment Examination (SAE) or practice exam is an online tool created by the CBPPS to simulate the CPPS Examination. The SAE is available for purchase at <http://store.lxr.com/dept.aspx?id=127>.

The 50-question online practice exam was developed using the same procedures as the examination, and conforms to examination specifications in content, cognitive levels, format, and difficulty. Feedback reports from the SAE show performance by domain and can be helpful in directing study and use of resources. The questions presented in the SAE are different from the questions contained on the certification examination.

MISSED APPOINTMENTS AND CANCELLATIONS

You will forfeit your examination registration and all fees paid to take the examination under the following circumstances. A new, complete application and examination fee are required to reapply for examination.

- You cancel your examination after confirmation of eligibility is received.
- You wish to reschedule an examination but fail to contact AMP at least two business days prior to the scheduled testing session.
- You wish to reschedule a second time.
- You appear more than 15 minutes late for an examination.
- You fail to report for an examination appointment.

INCLEMENT WEATHER, POWER FAILURE OR EMERGENCY

In the event of inclement weather or unforeseen emergencies on the day of an examination, AMP will determine whether circumstances warrant the cancellation, and subsequent rescheduling, of an examination. The examination will usually not be rescheduled if the Assessment Center personnel are able to open the Assessment Center.

You may visit AMP’s website at www.goAMP.com prior to the examination to determine if AMP has been advised that any Assessment Centers are closed. Every attempt is made to administer the examination as scheduled; however, should an examination be canceled at an Assessment Center, all scheduled candidates will receive notification following the examination regarding rescheduling or reapplication procedures.

If power to an Assessment Center is temporarily interrupted during an administration, your examination will be restarted. The responses provided up to the point of interruption will be intact, but for security reasons the questions will be scrambled.

TAKING THE EXAMINATION

Your examination will be given by computer at an AMP Assessment Center. You do not need any computer experience or typing skills to take your examination. On the day of your examination appointment, report to the Assessment Center no later than your scheduled testing time. Once you arrive at the location, look for signs indicating AMP Assessment Center check-in. **IF YOU ARRIVE MORE THAN 15 MINUTES AFTER THE SCHEDULED TESTING TIME, YOU WILL NOT BE ADMITTED.**

IDENTIFICATION

To gain admission to the Assessment Center, you must present two forms of identification. The primary form must be government issued, current and include your name, signature and photograph. No form of temporary identification will be accepted. You will also be required to sign a roster for verification of identity.

- Examples of valid primary forms of identification are: driver's license with photograph; state identification card with photograph; passport; military identification card with photograph.

AMP administration and security standards are designed to ensure all candidates are provided the same opportunity to demonstrate their abilities. The Assessment Center is continuously monitored by audio and video surveillance equipment for security purposes.

The following security procedures apply during the examination:

If any personal items are observed or heard (e.g., cellular/smart phones, alarms) in the testing room after the examination is started, you will be dismissed and the administration will be forfeited.

COPYRIGHTED EXAMINATION QUESTIONS

All examination questions are copyrighted. It is forbidden under federal copyright law to copy, reproduce, record, distribute or display these examination questions by any means, in whole or in part. Doing so may subject you to severe civil and criminal penalties.

COMPUTER LOGIN

After your identification has been confirmed, you will be directed to a testing carrel. You will be instructed on screen to enter your unique identification number. You will take your photograph which will remain on screen throughout your examination session. This photograph will also print on your score report.

PRACTICE EXAMINATION

Prior to attempting the examination, you will be given the opportunity to practice taking an examination on the computer. The time you use for this practice examination is NOT counted as part of your examination time or score.

When you are comfortable with the computer testing process, you may quit the practice session and begin the timed examination.

TIMED EXAMINATION

Following the practice examination, you will begin the timed examination. There are 100 items plus 10 pretest items on the examination. You will have 2 hours to complete the examination. Before beginning, instructions for taking the examination are provided on screen.

The computer monitors the time you spend on the examination. The examination will terminate if you exceed the time allowed. You may click on the "Time" box in the lower menu bar on the screen to monitor your time. A digital clock indicates the time remaining for you to complete the examination. The Time feature may be turned off during the examination.

Only one examination question is presented at a time. The question number appears in the lower right of the screen. Choices of answers to the examination question are identified as A, B, C, or D. You must indicate your choice by either typing in the letter in the response box in the lower left portion of the computer screen or clicking on the option using the mouse. To change your answer, enter a different option by typing A, B, C, or D or by clicking on the option using the mouse. You may change your answer as many times as you wish during the examination time limit.

To move to the next question, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination question by question. If you wish to review any question or questions, click the backward arrow (<) or use the left arrow key to move backward through the examination.

An examination question may be left unanswered for return later in the examination session. Questions may also be bookmarked for later review by clicking in the blank square to the right of the Time button. Click on the hand icon to advance to the next unanswered or bookmarked question.

on the examination. To identify all unanswered and book-marked questions, repeatedly click on the hand icon. When the examination is completed, the number of examination questions answered is reported. If not all questions have been answered and there is time remaining, return to the examination and answer those questions. Be sure to provide an answer for each examination question before ending the examination. There is no penalty for guessing.

CANDIDATE COMMENTS

During the examination, you may make comments for any question by clicking on the button displaying an exclamation point (!) to the left of the Time button. This opens a dialogue box where comments may be entered. Comments will be reviewed, but individual responses will not be provided.

FOLLOWING THE EXAMINATION

After completing the examination, you are asked to complete a short evaluation of your examination experience. Then, you are instructed to report to the examination proctor to receive an examination completion report.

SCORES CANCELLED BY THE CLIENT OR AMP

AMP is responsible for the validity and integrity of the scores they report. On occasion, occurrences, such as computer malfunction or misconduct by a candidate, may cause a score to be suspect. CBPPS and AMP reserve the right to void or withhold examination results if, upon investigation, violation of its regulations is discovered.

PASS/FAIL SCORE DETERMINATION

CBPPS uses a criterion-referenced methodology in scoring the certification examination. With this type of scoring methodology, there is no “curve,” and candidates do not compete against one another. Instead, candidate performance is compared to the criterion of acceptable practice of a qualified patient safety professional. The passing score for the examination is determined by using a process known as the Angoff method, in which experts in the field estimate the difficulty of each item on the examination for the minimally qualified candidate. These judgments are averaged to determine the minimum passing score, which represents the amount of knowledge a minimally qualified candidate would likely demonstrate on the examination. A statistical process called equating is used to adjust for the slight variations in difficulty that can occur among multiple test forms (versions of the examination). These steps help ensure that all candidates are held to the same standard of performance.

Scaled scores are reported to emphasize that although different forms of the examination may have slight differences in difficulty, the passing score for an examination is based on a consistent level of performance. Scaled scores are computed by setting the raw passing score equal to the scaled score required to pass. The scaled score is not the same as a percentage. The raw passing score may vary slightly between forms, depending on the difficulty of the items on the form; however, the scaled score required to pass (and the level of knowledge required to pass) does not change. This process is used to ensure fairness to all candidates.

IF YOU PASS THE EXAMINATION

If you pass the examination, you will be able to use the CPPS designation to indicate certification status. Recertification will be required every three years.

IF YOU DO NOT PASS THE EXAMINATION

Unsuccessful candidates who wish to retake the examination must wait 30 days before reapplying to AMP and remit all applicable fees and documentation.

FAILING TO REPORT FOR AN EXAMINATION

If you fail to report for an examination, you will forfeit the registration and all fees paid to take the examination. A completed application form and examination fee is required to reapply for examination.

CONFIDENTIALITY

Information about candidates for testing and their examination results are considered confidential. Studies and reports concerning candidates will contain no information identifiable with any candidate, unless authorized by the candidate.

DUPLICATE SCORE REPORT

You may purchase additional copies of your results at a cost of \$25 per copy. Requests must be submitted to AMP in writing. The request must include your name, unique identification number, mailing address, telephone number, date of examination and examination taken. Submit this information with the required fee payable to AMP in the form of a money order or cashier’s check. Duplicate score reports will be mailed within approximately five business days after receipt of the request and fee. Requests must be submitted within one year of your examination to be processed.
