

What's Current With Home Parenteral and Enteral Nutrition?

The Oley Foundation Regional Meetings

Save the Dates!
Saturday, January 24, 2015
The Palomar Chicago-Illinois

Saturday, February 14, 2015 
The Westin Long Beach-California

9:30 a.m. – 4:00 p.m.

Purpose: To provide education to patients/consumers and their caregivers regarding specialized home parenteral nutrition support (HPN or intravenous fluids) or home enteral feedings (HEN or tube feedings directly into the stomach or jejunum) due to intestinal failure.

Why consider attending? This program will help you learn what's current in the field of home parenteral and enteral nutrition (HPEN) so that you have a better idea of what the future may bring. Integrate HPEN into your everyday life, communicate your healthcare and emotional needs with greater self-assurance, meet others who live similarly and recognize that you're not alone.

About the Oley Foundation (www.oley.org): Founded in 1983 by Lyn Howard, MD, and her patient Clarence "Oley" Oldenburg, the Oley Foundation helps people who are dependent on

- Home parenteral nutrition (HPN), in which solutions are infused directly into the bloodstream via IV, *and*
- Home enteral nutrition (HEN), in which formula is delivered by tube into the stomach or intestinal tract

Oley enriches the lives of those requiring home intravenous and tube feeding through education, outreach, and networking. The Oley Foundation is a national, independent, 501(c)(3) not-for-profit organization. A copy of the foundation's latest New York State Report is available at www.charitiesnys.com.

For more information: The registration brochure will be posted on www.oley.org and sent to everyone on the Oley mailing list via email or U.S. Postal service. If you are not currently an Oley member, please call Cathy Harrington at 518.262.5079 or 800.776.6539 to be added to the list.

This program will be offered FREE of charge!
