

## The Oley AMBASSADOR

The Oley Foundation AMBASSADOR is an integral part of the Oley Foundation's outreach efforts.

An Oley AMBASSADOR has a great understanding of the challenges that face those requiring home intravenous and/or tube feeding, and recognizes the value of Oley Foundation resources and connections.

The main goal of the Oley AMBASSADOR is to heighten awareness of Oley resources whether it be in their geographic area, social networking community, clinical circles, etc. The "job" responsibilities can be flexible based on the AMBASSADOR's skills, available time, and interest.

### An Oley AMBASSADOR:

- Understands the Oley mission and recognizes the value of the resources and connections, and how they impact the members we serve.
- Will help the outreach and support efforts of Oley by utilizing their time, personal skills, interests, etc.
- Must endorse the premise that Oley's mission depends upon the full participation of all members of the homePEN family and remain impartial (refrain from being a spokesperson, employee or refer to/of any particular homecare company), manufacturer, product, etc.)

### An Oley AMBASSADOR may:

1. Distribute Oley materials in their area.
2. Staff exhibit booths at professional meetings, distributing Oley materials and networking on behalf of the Foundation.
3. Serve as spokesperson for Oley Foundation.
4. Help to put a "face" to homePEN therapy in local media events, etc.
5. Assist in advocacy efforts (write or visit lawmakers regarding an issue relevant to homePEN or digestive diseases.)
6. Offer to visit an inpatient awaiting discharge on homePEN.
7. Host support group meetings/gatherings.
8. Offer telephone/email support to others.
9. Help monitor and/or respond to chat forum discussions.
