

MESSAGE

Our warmest greetings to the attendees of the 65th Philippine Society of Mechanical Engineers (PSME) National Convention!

We believe that engineers serve as our backbone to the infrastructural development of our nation.

We are glad to see that this year's congress will touch on "Bridging Global Advancement for a Stronger Mechanical Engineering Profession," for the camaraderie fostered in this congress will be a hopeful step towards progress, to encourage more investors and promote healthy economic activity within Filipino architectural community.

We wish you all the best as you continue to strive for excellence in the field of mechanical engineering. We would also take a moment to thank all of you for the hard work and dedication you put into your work.

We look forward to seeing the fruits of the discussions you have in this conference. May your decisions create a ripple of transformation within our nation.

Muli, binabati namin kayo sa inyong pagtitipon, maraming salamat at mabuhay ang ating bayan!

LENI ROBREDO
